### **About Anchor BanCorp Wisconsin, Inc.**

Anchor BanCorp Wisconsin Inc. operates as the holding company for AnchorBank, fsb, which provides various financial products and services in Wisconsin, Iowa, Minnesota, and Illinois.

The company offers checking, savings, money market accounts, mortgages, home equity, and other consumer loans, credit cards, annuities, investment products, and related consumer financial services. It also provides banking services to businesses, including checking accounts, lines of credit, secured loans, and commercial real estate loans.

As of March 31, 2010, the company conducted business from its main office in Madison, Wisconsin, and from 70 other full-service offices and 2 loan origination offices which services its approximately 165,000 households and businesses. It also provides products and services online through its WebBranch online banking system and its Speed e-App online mortgage application tool.

The company's other subsidiaries include ADPC Corporation (ADPC), which holds and develops certain of its foreclosed properties; and Anchor Investment Corporation (AIC), an operating subsidiary, which manages a portion of its investment portfolio (primarily

mortgage related securities).

### Lending Activities

The company originates single-family residential loans secured by properties located primarily in Wisconsin, with adjustable-rate loans being originated for inclusion in its loan portfolio and fixed-rate loans being originated for sale into the secondary market. Non-real estate loans originated by the company consist of various consumer loans and commercial business loans.

**Single-Family Residential Loans:** The company originates long-term, fixed-rate conventional mortgage loans. It sells these loans with terms of 15 years or more to the Federal Home Loan Mortgage Corporation, Federal National Mortgage Association, and other institutional investors. The company also participates in the loan origination programs of Wisconsin Housing and Economic Development Authority (WHEDA), and Wisconsin Department of Veterans Affairs (WDVA).

**Multi-Family Residential and Commercial Real Estate:** The company originates multi-family residential and commercial real estate loans. Its multi-family residential loans are primarily secured by apartment buildings; and commercial real estate loans are primarily secured by office buildings, industrial buildings, warehouses, small retail shopping centers, and various special purpose properties, including hotels, restaurants, and nursing homes.

**Consumer Loans:** The company offers consumer loans to provide a range of financial services to its customers. Its education loans are made for undergraduate studies, for graduate studies and are placed in repayment on an installment basis within six months of graduation. Education loans might be sold to the U.S. Department of Education, or to other investors. The remainder of the company's consumer loan portfolio consists of vehicle loans and other loans that have been made for various consumer purposes. These include credit extended through credit cards issued by it pursuant to an agency arrangement under which it participates in outstanding balances, with a third party, ELAN Financial Services.

**Commercial Business Loans and Leases:** The company originates loans for commercial, corporate, and business purposes, including issuing letters of credit. Its commercial business loan portfolio comprises loans for various purposes and is secured by equipment, machinery, and other business assets.

## Investment Securities

The company's invests in mortgage-related securities which are insured or guaranteed by Federal Home Loan Mortgage Corporation (FHLMC), Federal National Mortgage Association (FNMA), or the Government National Mortgage Association (GNMA) backed by FHLMC, FNMA, and GNMA mortgage-backed securities and also invests in non-agency collateralized mortgage obligations (CMOs).

## Deposits

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
