Abstracts

Anglo-Canadian Uranium Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Anglo-Canadian Uranium Corp. and its competitors. This provides our Clients with a clear understanding of Anglo-Canadian Uranium Corp. position in the Industry.

The report contains detailed information about Anglo-Canadian Uranium Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Anglo-Canadian Uranium Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Anglo-Canadian Uranium Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Anglo-Canadian Uranium Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Anglo-Canadian Uranium Corp. business.

About Anglo-Canadian Uranium Corp.

Anglo-Canadian Uranium Corp., an exploration stage company, engages in the acquisition, exploration, and development of mineral properties in the provinces of British Columbia and Quebec, Canada; and in Colorado, Utah, and New Mexico, United States. The company primarily focuses on base and precious metals properties.

Mineral Properties

British Columbia

Stirrup: The company owns a 85% interest in the Stirrup claim group comprising 13 contiguous claims, Stirrup 1 to 13, totaling 495 hectares, located approximately 95 kilometers west of Clinton in south-central British Columbia and approximately 25 kilometers southeast of the Blackdome mine.

Princeton: The company owns interest in copper-gold-palladium-silver claims located 11 to 12 kilometers south of Princeton.

Quebec

Charles: The company owns a 100% interest in the Charles property. The property is a 2,119 hectare uranium property in the Otish basin in Quebec, located approximately 135 kilometers northeast of Chibougamau.

Big Mac: The company owns a 100% interest in 40 claims known as the Big Mac property located in the Otish basin area in the east-central region of Quebec. The property covers approximately 2,100 hectares.

Poularise: The company has an option to acquire a 100% interest in 14 contiguous mineral claims, known as the Poularise claims, located in the southern proportion of the Abitibi Greenstone belt in Quebec.

Yukon

During June 2009, the company acquired by staking a 100% interest in 130 claim blocks in west central Yukon Territory covering a total of approximately 2,800 hectares

The United States

Locuist: The company has an option to acquire a 100% interest in 12 uranium/vanadium claims in San Juan County, Utah. The option covers two blocks known as the East Canyon Wash area, which includes the Locuist Mine.

Spider Rock: The company owns a 100% interest in the Spider Rock claims. The property is an exploration stage mineral resource property and comprises four mineral claims located in Dolores county and San Miguel county, Colorado.

Eula Belle: The company acquired a 100% interest in these 53 mineral claims located in Montrose County, Colorado.

Joseph: The company has an option to acquire a 100% interest in the Joseph Uranium/Vanadium project, which consists of 106 claims located in the Bull Canyon region in Colorado within the Uravan Mineral Belt near the Utah border.

Tomcat: The company acquired an option to acquire a 100% interest in 81 claims located on Wedding Bell Mountain on the Colorado plateau area of the Uravan mineral belt. The claims are located in San Miguel County, Colorado, and further complement its portfolio of uranium and vanadium projects located in the Four Corners region of the United States.

Gunslinger: The company acquired 43 uranium/vanadium claims consisting of 820 acres located in the Colorado plateau district. These claims, known as the Gunslinger claims, are located on Outlaw Mesa in Mesa County, Colorado.

Gunfighter and Lonestar: The company acquired 110 uranium claims located in Mesa County, Colorado, known as the Outlaw Property, which are made up of two claim blocks: the Lonestar, consisting of 78 uranium and vanadium claims and the Gunfighter which consist of 32 uranium and vanadium claims.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
