pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes APAC Customer Services Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of APAC Customer Services Inc. business.

About APAC Customer Services Inc.

APAC Customer Services, Inc. provides customer care services and solutions in the communications, healthcare, business services, media and publishing, travel and entertainment, and financial services industries. As of January 3, 2010, its domestic operations consisted of approximately 6,200 workstations and the international operations consisted of approximately 4,200 workstations.

Services

The company's services are provided through customer care centers staffed with customer service representatives in domestic, international and client-owned locations. Its services involve communicating with customers and managing situations that are unique to each core industry. The company provides services through multiple communication channels, including telephone, internet, on-line chat, email, fax, mail correspondence, and automated response generated through technology. It offers the following services in each of its client industries:

Communications: Within the communications industry, the company provides the following services: product sales, ongoing account maintenance, billing issue resolution,

basic technical support, troubleshooting product issues, warranty and exchange processes, product set-up services, pre-paid account inquiries, customer retention activities and targeted inbound customer acquisition.

Healthcare: Within the healthcare industry, the company offers customer service support for various medical plans, including pharmacy, medical, dental, vision and Medicare Part D, to plan members, and healthcare plan providers alike. The company's customer service representatives answer questions regarding healthcare members' plan coverage, including benefits and eligibility, claims processing, enrollment and plan comparisons, prescription coverage and co-payment determination, and provide internet service help desk support and insurance and coverage application assistance. For healthcare providers, its customer service representatives provide similar information regarding member eligibility and benefits and claims processing. The company also provides various healthcare clients with internal help desk support and basic back office functions for their organizations.

Business Services: Within the business services industry, the company provides various solutions and services ranging from customer care, delivery scheduling, delivery issue resolution, strategic account management, international services, business to business contact management and sales, account set-up and maintenance, billing research and resolution, and claims processing.

Media & Publishing: The company provides email support for social networking sites and postings, as well as image review for the content on those sites. Additionally, it supports cable and broadband subscribers' inquiries in multiple languages, handling issues ranging from program and content to installation and technical support dispatch. Within the publishing industry, the company provides services for account management, subscriber acquisition, verification and retention, and billing and payment support. In addition to phone services, the company also provides solutions in support of customer correspondence, back-office document processing and email.

Travel and Entertainment: For the travel and entertainment industry, the company provides customer care services, including reservation booking for general and corporate travel, information on hotels, resort properties locations and amenities, car rental and airline policies, cancellations, billing and account management, as well as complaint resolution.

Financial Services: Within the financial services industry, its services include assisting customers with card activation, credit inquiries, billing issue resolution, account

maintenance, balance inquiries and transfers, and credit line increases. It also supports the insurance, fraud protection, and identity theft products often delivered to the consumer customers of these cards.

Customers

The company's major customers are Verizon Wireless, United Parcel Services, Inc., Medco Health Solutions, Inc., and WellPoint, Inc.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
