ArcelorMittal South Africa Due Diligence Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between ArcelorMittal South Africa and its competitors. This provides our Clients with a clear understanding of ArcelorMittal South Africa position in the **Metals and Mining Industry**.

- The report contains detailed information about ArcelorMittal South Africa that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.
- Another part of the report is a SWOT-analysis carried out for ArcelorMittal South Africa. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.
- The ArcelorMittal South Africa financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.
- In the part that describes ArcelorMittal South Africa competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.
- Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of ArcelorMittal South Africa business.

About ArcelorMittal South Africa

ArcelorMittal South Africa Limited engages in the manufacture and sale of long and flat carbon steel products and beneficiated by-products. The company's operations are primarily concentrated in South Africa with a sales focus domestically and internationally, with specific emphasis on sub-Saharan Africa. It also has operations in Europe and Asia. Its target markets include automotive, construction, household appliances, and packaging.

Segments

Flat Carbon Steel Products Segment

The Flat Carbon Steel Products Segment produces flat steel products at its Vanderbijlpark and Saldanha operations. Vanderbijlpark is a supplier of flat steel products in sub-Saharan Africa.

Vanderbijlpark Works is an inland steel mill in sub-Saharan Africa, with two Blast Furnaces, three electric arc furnaces and three basic oxygen furnaces. It has a capacity of 4.4 million tonnes of liquid steel per annum, which is converted into a range of steel sheeting and plates. These are sold as hot rolled strip or, through further processing, into cold rolled and coated products, such as tinplate and hot dip galvanised, electro-galvanised and pre-painted sheet.

Saldanha Works has a capacity of 1.2 million tonnes of liquid steel per annum. It also produces ultra thin hot rolled coil.

Long steel Products Segment

The Long steel Products Segment produces a range of long steel products at the integrated steel works at Newcastle and the electric arc furnace-based facility at Vereeniging Works. These products include bar, billets, blooms, hot-finished and colddraw seamless tubes, window and fencing profiles, rod and light, medium and heavy sections.

Vereeniging Works is supplier of specialty steel products, tube and forge products in South Africa. At full capacity it delivers approximately 0.4 million tonnes of final product per annum.

Newcastle Works, with one Blast Furnace, three basic oxygen furnaces and four rolling mills, this operation has a capacity of 1.8 million tonnes of liquid steel annually. Products include low, medium and high carbon steels, alloy steels, bar, structural sections and rails.

Coke and Chemicals Segment

The Coke and Chemicals Segment's primary business is the production of market coke for the ferroalloy industry from coke batteries located in Pretoria, Newcastle and Vanderbijlpark. The business also processes and beneficiates metallurgical and steel by-products, including coal tar pitch. The Coke and Chemicals operation comprises three coke batteries in Newcastle, Vanderbijlpark and Pretoria.

The above Company Fundamental Report is a half-ready report and contents are subject to change. It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.
