The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of ARI Network Services Inc. business.

About ARI Network Services Inc.

Tamir Biotechnology, Inc., a development stage biopharmaceutical company, engages in the discovery and development of therapeutic drugs for the treatment of cancer and other pathological conditions. The company's proprietary drug discovery and development program consists of therapeutics which is being developed from amphibian ribonucleases (RNases).

ONCONASE, the company's principal drug product candidate, has been evaluated in human clinical trials for the treatment of various forms of cancer. Its clinical trial for ONCONASE was a confirmatory phase IIIb registration trial that was designed to evaluate the combination of ONCONASE and doxorubicin as compared to doxorubicin alone in the treatment of patients with unresectable (inoperable) malignant mesothelioma (UMM).

ONCONASE (ranpirnase) is an amphibian ribonuclease, isolated from the eggs of the *Rana pipiens* (the Northern Leopard frog). Ranpirnase is the protein belonging to the superfamily of pancreatic ribonuclease, to re-regulate the unregulated growth and proliferation of cancer cells. ONCONASE primarily affects exponentially growing malignant cells, with activity controlled through unique and specific molecular

mechanisms.

Marketing and Distribution Agreements

Megapharm Ltd.: In May 2008, the company entered into a marketing, sales, and distribution agreement with Megapharm Ltd. for the commercialization of ONCONASE in Israel.

BL&H Co. Ltd.: In January 2008, the company entered into a marketing and distribution agreement with BL&H Co. Ltd. for the commercialization of ONCONASE in Korea, Taiwan, and Hong Kong.

US Pharmacia: In July 2007, the company entered into a distribution and marketing agreement, with USP Pharma Spolka Z.O.O., an affiliate of US Pharmacia, pursuant to which the distributor was granted rights for the marketing, sales, and distribution of ONCONASE for use in oncology in Poland, Belarus, Ukraine, Estonia, Latvia, and Lithuania.

GENESIS Pharma S.A.: In December 2006, the company entered into a distribution and marketing agreement with GENESIS Pharma S.A. (GENESIS), pursuant to which GENESIS was granted exclusive rights for the marketing, sales, and distribution of ONCONASE for use in oncology in Greece, Cyprus, Bulgaria, Romania, Slovenia, Croatia, Serbia, and the Former Yugoslavian Republic of Macedonia.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
