The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Ashford Hospitality Trust Inc. business.

### **About Ashford Hospitality Trust Inc.**

Ashford Hospitality Trust, Inc. operates as a self-advised real estate investment trust. The company owns its lodging investments and conducts business through Ashford Hospitality Limited Partnership, its operating partnership. Ashford OP General Partner LLC, a wholly-owned subsidiary of the company, serves as the sole general partner of operating partnership.

The company, as of December 31, 2006, owned 81 hotel properties in 26 states with 15,492 rooms, an office building with nominal operations. Its hotel investments are focused on the upscale and upper-upscale lodging segments and primarily concentrated among Marriott, Hilton, Hyatt, and Starwood brands.

The company intends to invest in a variety of lodging-related assets. These investments include: direct hotel investments; mezzanine financing through origination or acquisition in secondary markets; first-lien mortgage financing through origination or acquisition in secondary markets; and sale-leaseback transactions.

### **Segments**

The company operates in two business segments within the hotel lodging industry:

## Direct Hotel Investments and Hotel Financing.

Direct hotel investments refers to owning hotels through either acquisition or new development.

Hotel financing refers to owning subordinate hotel-related mortgages through acquisition or origination.

## Franchise Licenses

The company, as of December 31, 2006, owned 81 hotels, 79 of which operated under the following franchise licenses or brand management agreements: Embassy Suites, Doubletree, Hilton, Hilton Garden Inn, Homewood Suites, Hampton Inn, Radisson, Marriott, JW Marriott, SpringHill Suites, Residence Inn, Courtyard, Fairfield Inn, TownePlace Suites, Hyatt Regency, Sheraton, Westin, and Crowne Plaza.

## Joint Ventures

The company has formed a joint venture with Prudential Real Estate Investors (PREI) to invest in structured debt and equity hotel investments in the United States.

## REIT Tax Status

The company is elected to be taxed as REIT for the federal income tax purposes and would not be subject to income tax to the extent it distributes at least 90% of its taxable income to its stockholders.

## History

Ashford Hospitality Trust, Inc. was founded in 1968.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
