Abstracts

A.T. Cross Company Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between A.T. Cross Company and its competitors. This provides our Clients with a clear understanding of A.T. Cross Company position in the [Commercial Services and Supplies](#) Industry.

The report contains detailed information about A.T. Cross Company that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for A.T. Cross Company. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The A.T. Cross Company financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes A.T. Cross Company competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of A.T. Cross Company business.

About A.T. Cross Company

A.T. Cross Company engages in the design, manufacture, and marketing of writing instruments, business accessories, and watches worldwide. The company is an OEM of writing instruments.

Segments

The company has two segments, Cross Accessory Division (CAD) and Cross Optical Group (COG).

Cross Accessory Division

The company manufactures and markets writing instruments under the Cross brand consisting of ball-point pens, fountain pens, selectip rolling ball pens and mechanical pencils. It also manufactures and markets a variety of refills for most of its product types. In addition to Cross-branded writing instruments, CAD launched a FranklinCovey line of entry level price point refillable writing instruments in 2009. The company is an original equipment manufacturer of writing instruments. In addition to writing instruments, the company also designs and markets a variety of personal and business accessories including leather goods, reading glasses, watches, desk sets, cufflinks, and

stationery.

The company's writing instruments are offered in a variety of styles and materials. They are packaged and sold as individual units or in matching sets. Products include Classic Century, Autocross, Calais, Aventura, Stratford, Cross Contour, Century III, Tech3, Stylist and selected Century II and ATX writing instruments.

The Cross Century III, Sable, Helios, Nile, Revere, Sage and Parasol writing instrument product lines are sold to the company's office superstore customers.

CAD products are sold throughout the United States by direct sales force and manufacturers' agents or representatives to approximately 2,400 retail and wholesale accounts, and directly to consumers via the company's website: www.cross.com, and the Cross retail stores. Retail accounts include gift stores, department stores, jewelers, stationery, office supply and pen specialty stores, and United States military post exchanges. The company's wholesale accounts distribute Cross Accessory Division products to retail outlets that purchase in smaller quantities. Advertising specialty representatives market to business accounts CAD products that typically are engraved or display a name or emblem and are used for gifts, sales promotions, incentives, or advertising.

Cross Optical Group

The company's COG segment consists of its wholly-owned subsidiary, Cross Optical Group, Inc., which is an entity of two sunglass brands: Costa and Native. This business designs, manufactures and markets polarized sunglasses and goggles under the brand names Costa and Native. Combined, its brands offer approximately 70 styles and 25 lens options. Retail accounts include optical and sunglass specialty shops, department stores and sporting goods retailers.

History

A.T. Cross Company was founded in 1846.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
