Abstracts

Atmos Energy Corporation Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Atmos Energy Corporation and its competitors. This provides our Clients with a clear understanding of Atmos Energy Corporation position in the [Utilities](#) Industry.

The report contains detailed information about Atmos Energy Corporation that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Atmos Energy Corporation. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Atmos Energy Corporation financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Atmos Energy Corporation competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Atmos Energy Corporation business.

About Atmos Energy Corporation

Atmos Energy Corporation engages in the distribution, transmission, and storage of natural gas, as well as other nonregulated natural gas businesses. The company distributes natural gas to residential, commercial, public authority, and industrial customers in the United States.

Through the company's nonregulated businesses, it primarily provide natural gas management and marketing services to municipalities, other local gas distribution companies, and industrial customers principally in the midwest and southeast, and natural gas transportation along with storage services to certain of its natural gas distribution divisions and third parties.

Segments

The company operates through four segments, including Natural Gas Distribution Segment; Regulated Transmission and Storage Segment; Natural Gas Marketing Segment; and Pipeline, Storage, and Other Segment.

Natural Gas Distribution Segment

The company's natural gas distribution segment consists of six regulated divisions, which include Atmos Energy Mid-Tex division, Atmos Energy Kentucky/Mid-States division, Atmos Energy Louisiana division, Atmos Energy West Texas division, Atmos Energy Colorado-Kansas division and Atmos Energy Mississippi division. Its primary service areas are located in Colorado, Kansas, Kentucky, Louisiana, Mississippi, Tennessee, and Texas. It has limited service areas in Georgia, Illinois, Iowa, Missouri, and Virginia. In addition, it transports natural gas for others through its distribution system.

Atmos Energy Mid-Tex Division: The company's Mid-Tex division serves approximately 550 incorporated and unincorporated communities in the north-central, eastern, and western parts of Texas, including the Dallas/Fort Worth Metroplex.

Atmos Energy Kentucky/Mid-States Division: The company's Kentucky/mid-states division operates in approximately 420 communities across Kacross Georgia, Illinois, Iowa, Kentucky, Missouri, Tennessee, and Virginia. The division serves Franklin, Tennessee and other suburban areas of Nashville.

Atmos Energy Louisiana Division: In Louisiana, the company serves approximately 300 communities, including the suburban areas of New Orleans, the metropolitan area of Monroe, and western Louisiana.

Atmos Energy West Texas Division: The company's West Texas Division serves approximately 80 communities in West Texas, including the Amarillo, Lubbock, and Midland areas.

Atmos Energy Colorado-Kansas Division: The company's Colorado-Kansas Division serves approximately 170 communities throughout Colorado and Kansas and parts of Missouri, including the cities of Olathe, Kansas, a suburb of Kansas City and Greeley, Colorado, located near Denver.

Atmos Energy Mississippi Division: In Mississippi, the company serves approximately 110 communities throughout the northern half of the state, including the Jackson metropolitan area.

Regulated Transmission and Storage Segment

The company's regulated transmission and storage segment consists of the regulated pipeline and storage operations of its Atmos Pipeline — Texas Division. This division

transports natural gas to its Mid-Tex division, transports natural gas for third parties, and manages five underground storage reservoirs in Texas. It also provides ancillary services in the pipeline industry, including parking arrangements, lending, and sales of excess gas. Parking arrangements provide short-term interruptible storage of gas on its pipeline. Lending services provide short-term interruptible loans of natural gas from its pipeline.

Natural Gas Marketing Segment

The company's natural gas marketing activities are conducted through Atmos Energy Marketing (AEM), which is wholly-owned by Atmos Energy Holdings, Inc. (AEH). AEH is a wholly-owned subsidiary of the company and operates in the midwest and southeast areas of the United States.

AEM aggregates and purchases gas supply, arrange transportation, and storage logistics, and deliver gas to customers. In addition, AEM utilizes proprietary and customer-owned transportation and storage facilities to provide various services to its customers, including furnishing natural gas supplies, contract negotiation and administration, load forecasting, gas storage acquisition and management services, transportation services, peaking sales and balancing services, capacity utilization strategies, and gas price hedging through the use of financial instruments.

Pipeline, Storage, and Other Segment

The company's pipeline, storage, and other segment consists of the operations of Atmos Pipeline and Storage, LLC (APS), which is wholly-owned by AEH. APS engages in nonregulated transmission, storage, and natural gas gathering services. It also owns or controls additional pipeline and storage capacity, including interests in underground storage fields in Kentucky and Louisiana. APS' primary business is to provide storage and transportation services to its Louisiana and Kentucky/Mid-States regulated natural gas distribution divisions, to its natural gas marketing segment, and to third parties. APS also engages in various asset optimization activities.

Suppliers

The company's suppliers for Natural Gas Distribution segment were Anadarko Energy Services, BP Energy Company, Devon Gas Services, L.P., Enbridge Marketing (US) L.P., Iberdrola Renewables, Inc., National Fuel Marketing Company, LLC, ONEOK Energy Services Company L.P., Tenaska Marketing, Texla Energy Management, Inc.,

and Atmos Energy Marketing, LLC, its natural gas marketing subsidiary.

History

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
