Abstracts

Australian Canadian Oil Royalties, Ltd. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Australian Canadian Oil Royalties, Ltd. and its competitors. This provides our Clients with a clear understanding of Australian Canadian Oil Royalties, Ltd. position in the [Energy](#) Industry.

The report contains detailed information about Australian Canadian Oil Royalties, Ltd. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Australian Canadian Oil Royalties, Ltd.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Australian Canadian Oil Royalties, Ltd. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented

on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Australian Canadian Oil Royalties, Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Australian Canadian Oil Royalties, Ltd. business.

About Australian Canadian Oil Royalties, Ltd.

Australian-Canadian Oil Royalties Ltd. engages in the acquisition, exploration, development, production, and sale of oil and gas properties in Australia.

The company holds overriding royalty interests in the Cooper/Eromanga Basins that cover parts of Queensland and South Australia. Its overriding royalties total 488,040 net royalty acres under 13,679,838 gross surface acres in 13 concessions. In addition the company owns 5,307 net royalty acres under 854,898 gross acres in the Bass Strait of the Gippsland Basin located offshore of the state of Victoria, Australia and 428 net royalty acres under 160,618 gross acres in the Carnarvon Basin located offshore of the state of Western Australia.

Cooper/Eromanga Basin

The company holds overriding royalty interests in five oil and gas concessions and holds working interests in three oil and gas concessions located in the Cooper/Eromanga Basin of South Australia. The Eromanga Basin encompasses the

southwestern portion of the State of Queensland and the northeast corner of South Australia, and is Australia's main onshore producing oil and gas basin.

The Cooper Basin is located in the northeast part of the State of South Australia. The company has overriding royalty interests in four permits in the Gippsland Basin, VIC/P45, 53, 54, and 59. The Bass Strait of the Gippsland Basin is located between the State of Victoria and Tasmania.

VIC/P45: VIC/P45 is an offshore concession covering 214,896 gross acres under which the company holds a 7.5% of 1% of gross production. This concession is located in the prolific oil-producing basin in Australia, approximately 1.5 miles east of the Kingfish Oil Field in the southern Gippsland Basin in the Bass Straits.

VIC/P53: VIC/P53 is an offshore concession covering 182,858 gross acres under which the company holds a 15% of 1% of gross production.

VIC/P54: VIC/P54 is an offshore concession covering 155,676 gross acres under which the company holds a 5% of 1% of gross production.

VIC/P59: VIC/P59 consists of 301,468 gross acres and is located offshore in the Gippsland Basin under which the company holds 1,206 net royalty acres representing a 1/20th of 1% overriding royalty interest.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
