## **Abstracts**

Austriamicrosystems AG Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Austriamicrosystems AG and its competitors. This provides our Clients with a clear understanding of Austriamicrosystems AG position in the Industry.

The report contains detailed information about Austriamicrosystems AG that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Austriamicrosystems AG. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Austriamicrosystems AG financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Austriamicrosystems AG competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Austriamicrosystems AG business.

## **About Austriamicrosystems AG**

Austriamicrosystems AG engages in the design and manufacture of integrated analog intensive ICs and solutions. The company principally offers its solution in four strategic markets: Communications, Industry & Medical, Automotive and Full-Service Foundry.

### **Products**

The company provides analog products, including versatile Standard Linear products.

The company's product portfolio include: power management products, such as PMUs, Lighting, Microprocessor Supervisors, LDOs, and DC/DC Converters; audio products, such as Portable Audio, Analog Audio Front-ends, Audio Music Player ICs, Audio Amplifiers, and Phones (Feature/Basic); data converters, such as Digital Potentiometers; sensors and sensor interfaces, such as Rotary Encoders and Metering; interface products, such as Display and LED Drivers, Bus Systems, ASi Bus, and Flexray Bus; and RF products, such as High Frequency and Low Frequency products.

The company's offerings include: Power Management products; Mobile Entertainment products; Wireline Communication products; Bus Systems products, such as Flexray, CAN Bus Systems, LIN Bus Systems, DDB Systems, TTP Bus Systems / Time

Triggered Technology, and ASSP Products, including AS8202NF and AS8221; Car Access products; Metering products; Sensors / Sensor Interfaces products; Medical products; High Voltage products; General Digital IPs products; and General Analog IPs.

The company also offers ASICs products. The company also supplies analog and mixed signal ASICs (Application Specific Integrated Circuits), designed for global market in the Automotive, Communications, Industry, and Healthcare markets.

### Significant Events

In October 2007, Austriamicrosystems AG and IDS Microchip have partnered to develop an UHF RFID reader IC targeted at the portable reader market. These UHF RFID readers would be used to interrogate Gen 2 RFID tags, the latest generation of RFID tag technology, allowing contactless identification of goods or materials in a broad range of applications.

In April 2007, the company agreed on a development alliance with International Business Machines Corp. They would work together on production of new chip technology for electricity direction in mobile electronic devices.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

RESEARCH METHODOLOGY

DISCLAIMER

### **1. AUSTRIAMICROSYSTEMS AG COMPANY PROFILE**

- 1.1. Key facts
- 1.2. Financial Performance
- 1.3. Key Executives
- 1.4. Ownership and Major Holders
- 1.5. Company History

### **2. AUSTRIAMICROSYSTEMS AG BUSINESS OVERVIEW**

- 2.1. Business Description
- 2.2. Major Products and Services
- 2.3. Markets and Sales Activities
- 2.4. Locations, Subsidiaries, Operating Units

### **3. AUSTRIAMICROSYSTEMS AG SWOT ANALYSIS**

- 3.1. Overview
- 3.2. Strengths
- 3.3. Weaknesses
- 3.4. Opportunities
- 3.5. Threats

### **4. AUSTRIAMICROSYSTEMS AG FINANCIAL ANALYSIS**

- 4.1. Financial Statements
  - 4.1.1. Income Statement
  - 4.1.2. Balance Sheet
  - 4.1.3. Cash Flow
- 4.2. Financial Ratios
  - 4.2.1. Profitability
  - 4.2.2. Margin Analysis

- 4.2.3. Asset Turnover
- 4.2.4. Credit Ratios
- 4.2.5. Long-Term Solvency
- 4.2.6. Growth Over Prior Year
- 4.2.7. Financial Ratios Charts
- 4.3. Stock Market Snapshot

## **5. AUSTRIAMICROSYSTEMS AG COMPETITORS AND INDUSTRY ANALYSIS**

- 5.1. Austriamicrosystems AG Direct Competitors
- 5.2. Comparison of Austriamicrosystems AG and Direct Competitors Financial Ratios
- 5.3. Comparison of Austriamicrosystems AG and Direct Competitors Stock Charts
- 5.4. Austriamicrosystems AG Industry Analysis
  - 5.4.1. Industry Snapshot
  - 5.4.2. Austriamicrosystems AG Industry Position Analysis

## **6. AUSTRIAMICROSYSTEMS AG NEWS & EVENTS**

- 6.1. News & PR Activity Analysis
- 6.2. IR Corporate News
- 6.3. Marketing News
- 6.4. Corporate Events

## **7. AUSTRIAMICROSYSTEMS AG EXPERTS REVIEW<sup>1</sup>**

- 7.1. Experts Consensus
- 7.2. Experts Revisions

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
