Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Avalon Holdings Corp. business.

About Avalon Holdings Corp.

Avalon Holdings Corporation, through its subsidiaries, provides waste management services. It also engages in golf and related operations.

Segments

The company's business segments include Waste Management Services, and Golf and Related Operations.

Waste Management Services

The Waste Management Services segment includes hazardous and nonhazardous waste disposal brokerage and management services, and captive landfill management operations. Waste management services are provided to industrial, commercial, municipal, and governmental customers primarily in selected northeastern and midwestern United States markets.

American Waste Management Services, Inc. (AWMS) assists customers with managing and disposing of wastes at approved treatment and disposal sites based upon a customer's needs.

American Landfill Management, Inc. (ALMI) is a landfill management company that provides technical and operational services to customers owning captive disposal facilities. A captive disposal facility disposes of waste generated by the owner of such facility. ALMI provides various services, including daily operations, facilities management, and management reporting for its customers. ALMI manages one captive disposal facility located in Ohio. In addition, American Construction Supply, Inc., a wholly owned subsidiary of ALMI, sells construction mats.

Golf and Related Operations

The Golf and Related Operations segment includes the operation and management of golf courses, fitness centers, dining, and banquet facilities and a travel agency.

Avalon Lakes Golf, Inc. (ALGI) owns and operates a Pete Dye designed championship golf course located in Warren, Ohio. ALGI involves cart rentals, merchandise sales, and food, and beverage sales. TBG, Inc., a subsidiary of ALGI, entered into a long-term agreement with Squaw Creek Country Club to lease and operate its golf course and related facilities. In addition to a championship golf course, the Squaw Creek facilities include a swimming pool, tennis courts, and a clubhouse that provides a fitness center, dining, and banquet facilities. Avalon Travel, Inc., a subsidiary of ALGI, owns and operates a travel agency, which engages in the booking travel reservations.

The company has formed the Avalon Golf and Country Club to manage the golf courses and the related operations. The company, through its subsidiary, Avalon Country Club of Sharon, Inc., purchased interest in the Sharon Country Club assets. The primary assets of the Sharon Country Club include the golf course and clubhouse. The company has renovated the clubhouse and constructed additional recreational facilities and operates the Sharon Country Club facilities as part of its Avalon Golf and Country Club.

History

Avalon Holdings Corporation was founded in 1998.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
