pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes A&W Revenue Royalties Income Fund competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of A&W Revenue Royalties Income Fund business.

About A&W Revenue Royalties Income Fund

A&W Revenue Royalties Income Fund operates as a limited purpose trust. The Fund, through A&W Trade Marks Limited Partnership, franchises quick service restaurants.

Business

The Fund is a franchisor of hamburger quick service restaurants in Canada. A&W restaurants serve approximately 90 million customers annually. The A&W product line includes hamburgers (The Burger Family), chicken products (through the Chubby Chicken line of products), French fries, A&W Root Beer, fresh hand-cut onion rings, soft drinks and juices, coffee and breakfast items. As of December 31, 2008, there were 695 A&W restaurants in operation in Canada, of which 685 are owned and operated by owner/operators under franchise agreements with Food Services and 10 are owned and operated by Food Services, 9 of which are in the Ottawa, Ontario area. A&W restaurants operate as freestanding restaurants with drive-thru facilities, restaurants in shopping centers or gas/convenience store restaurants on shared sites. The 695 A&W restaurants as of December 28, 2008 are owned by a total of 340 owners. Of these, 110 owners own approximately one A&W restaurant.

A&W Restaurant Concepts

Shopping Centre Restaurants: The A&W restaurants within shopping centers operate out of approximately 400 square feet and share common seating with other food restaurants within a food court. Food courts have between 6 and 12 restaurants, with each restaurant restricted to a designated type of food. There were 176 restaurants with shared common seating and 43 A&W restaurants with their own seating that operated within shopping centres, as of December 28, 2008.

Freestanding Restaurants: Freestanding restaurants are restaurants that are located in their own buildings and feature self service counters and drive-thru service. These restaurants range in size from 1,650 to 3,200 square feet with seating for between 40 and 120 customers. As of December 28, 2008, 375 A&W restaurants operated as freestanding restaurants.

Other Restaurants: A&W restaurants with gas/ convenience retailers on shared sites feature a limited menu. Seating is for only 20 to 50 customers. These restaurants are intended to allow for synergies between retail categories of gasoline, convenience retailing and quick service restaurants. As of December 28, 2008, 85 A&W restaurants operated in this type of location. In addition, as of December 28, 2008, there were 16 A&W street in-line restaurants.

Competition

The principal competitors to A&W are McDonald's, Harvey's, Burger King and Wendy's.

History

A&W Revenue Royalties Income Fund was founded in 2001.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
