The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Ayala Corp. business.

About Ayala Corp.

Ayala Corporation operates in real estate and hotels, financial services and bancassurance, telecommunications, electronics, information technology and business process outsourcing services, utilities, automotives, international, and others sectors primarily in the Philippines.

SEGMENTS

The company operates its business in eight segments: Real Estate and Hotels; Financial Services and Bancassurance; Telecommunications; Electronics, Information Technology and Business Process Outsourcing (BPO) Services; Water Utilities; Automotive; International; and Others.

Real Estate and Hotels

The Real Estate and Hotels Segment engages in the planning and development of large-scale integrated residential and commercial communities; development and sale of residential, leisure, and commercial lots and the development and leasing of retail and office space and land in these communities; construction and sale of residential condominiums and office buildings; development of industrial and business parks; development and sale of upper middle-income and affordable housing; strategic land

bank management; hotel, cinema, and theater operations; and construction and property management.

Financial Services and Bancassurance

The Financial Services and Bancassurance Segment engages in universal banking operations, including savings and time deposits in local and foreign currencies; commercial, consumer, mortgage and agribusiness loans; leasing; payment services, including card products, fund transfers, international trade settlement and remittances from overseas workers; trust and investment services, including portfolio management, unit funds, trust administration and estate planning; integrated bancassurance operations, including life, non-life, preneed, and reinsurance services; Internet banking; on-line stock trading; corporate finance and consulting services; foreign exchange and securities dealing; and safety deposit facilities.

Telecommunications

The Telecommunications Segment provides digital wireless communications services, wireline voice communication services, consumer broadband services, other wireline communication services, domestic and international long distance communication or carrier services, and mobile commerce services.

Electronics, Information Technology and Business Process Outsourcing (BPO) Services

The Electronics, Information Technology and Business Process Outsourcing (BPO) Services Segment offers electronics manufacturing services for original equipment manufacturers in the computing, communications, consumer, automotive, industrial, and medical electronics markets; venture capital for technology businesses and emerging markets; provision of value-added content for wireless services, on-line business-to-business and business-to consumer services; electronic commerce; and technology infrastructure hardware and software sales and technology services; and onshore- and offshore-business process outsourcing services.

Water utilities

The Water utilities Segment contracts to manage, operate, repair, decommission, and refurbish fixed and movable assets (except certain retained assets) required to provide water delivery services and sewerage services in the East Zone Service Area.

Automotive

The Automotive Segment engages in the manufacture and sale of passenger cars and commercial vehicles.

International

The International Segment invests in overseas property companies and projects.

Others

The Others Segment offers air-charter services, agri-business, and others.

History

Ayala Corporation was founded in 1834.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
