The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of BancorpSouth, Inc. business.

### **About BancorpSouth, Inc.**

BancorpSouth, Inc. operates as the holding company for BancorpSouth Bank, which provides commercial banking and financial services in the United States.

The company has its principal office in Tupelo, Lee County, Mississippi, and conducts a general commercial banking, trust and insurance business through 310 offices in Mississippi, Tennessee, Alabama, Arkansas, Texas, Louisiana, Florida, Missouri, and Illinois.

The company provides a range of financial services to individuals and small-to-medium size businesses. It operates investment services, credit insurance and insurance agency subsidiaries which engage in investment brokerage services and sales of other insurance products. Its trust department offers various services, including personal trust and estate services, certain employee benefit accounts and plans, including individual retirement accounts, and limited corporate trust functions.

### **Lending Activities**

The company's lending activities include both commercial and consumer loans.

**Commercial Lending:** The company offers various commercial loan services, including term loans, lines of credit, equipment and receivable financing and agricultural loans. A range of short-to-medium term commercial loans, both secured and unsecured, are made available to businesses for working capital (including inventory and receivables), business expansion (including acquisition and development of real estate and improvements), and the purchase of equipment and machinery. It also makes construction loans to real estate developers for the acquisition, development and construction of residential subdivisions.

**Residential Consumer Lending:** The company originates fixed and adjustable rate residential mortgage loans secured by owner-occupied property. It also offers construction loans, second mortgage loans and home equity lines of credit. It finances the construction of individual and owner-occupied houses.

**Non-Residential Consumer Lending:** Non-residential consumer loans made by the company include loans for automobiles, recreation vehicles, boats, personal (secured and unsecured) and deposit account secured loans. It also issues credit cards solicited on the basis of applications received through referrals from its branches and other marketing efforts.

#### Other Financial Services

The company's insurance service subsidiary serves as an agent in the sale of title insurance, commercial lines of insurance and a line of property and casualty, life, health and employee benefits products and services and operates in Mississippi, Tennessee, Alabama, Arkansas, Texas, Louisiana, Missouri, and Illinois. Its investment services subsidiary provides brokerage, investment advisory and asset management services and operates in certain communities in Mississippi, Tennessee, Alabama, Arkansas, Louisiana, Texas, Florida, and Missouri.

#### Investment Portfolio

As of December 31, 2009, the company's investment portfolio included the U. S. Government agency securities; government agency issued residential mortgage-backed securities; government agency issued commercial mortgage-backed securities; taxable obligations of states and political subdivisions; tax-exempt obligations of states and political subdivisions; collateralized debt obligations; and other securities.

#### Deposits

As of December 31, 2009, the company's deposits included noninterest bearing deposits; interest bearing deposits; savings; and other time deposits.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
