The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Banks.com, Inc business.

About Banks.com, Inc

Banks.com, Inc. owns and operates Internet Web and media properties that provide targeted online advertising opportunities. Through banks.com, the company provides access to financial content, including financial news, business articles, interest-rate tables, stock quotes, stock tracking, and financial calculators. It also provides users access to online financial services, including tax preparation and stock brokerage. The company operates other proprietary search and shopping related Web sites, including look.com and searchexplorer.com.

The company has launched a premium pay per click advertising network known as the InterSearch AdNet, which serves approximately 10 billion advertising impressions per month on its proprietary Web sites, as well as a publishing distribution network. The company's distribution network consists of its Web properties and search engines, including, banks.com, look.com, searchexplorer.com and the InterSearch AdNet. In addition, the company owns the domain name, irs.com and the traffic derived when users type that URL into their browsers is redirected to banks.com.

Services and Products

The company's Internet advertising services are designed to enable advertisers to sell their products and services online to a base of targeted customers through its distribution network which consists of search engines and selected Web properties. It provides these services through the development of its primary Web property, www.banks.com, through which it offers online users an online consumer banking marketplace built around a domain name that is synonymous with that offering. Users can find information on a range of financial products and services, from mortgages and financial calculators to tax preparation and stock brokerage services. The Banks.com network also features a wealth of resources and advice on personal finance topics in a convenient user format. The company also provides these types of services for those consumers and advertisers searching for general goods and services through its search and shopping related Web sites, look.com and searchexplorer.com. In addition, through its consultants, the company provides professional and technical solutions to the financial services industry through its operating subsidiary, InterSearch Corporate Services, Inc.

Internet Advertising Services

By providing relevant listings of products and services to consumers in response to their targeted searches on the Internet, the company offers businesses a method of driving qualified prospects for their products and services to their Web sites. The company accomplishes this by distributing the listings of its advertising network partners and direct advertisers throughout its network of Web properties and search engines. Advertisers pay its advertising network partners only when an Internet user clicks-through on the advertisers' listing. The company has entered into an advertising partnership with InfoSpace, Inc., whereby InfoSpace provides paid search results on banks.com and look.com. The launch of InfoSpace's metasearch technology on its banks.com and look.com sites has allowed its users to search and receive the relevant results from the major search engines in the industry, including Google and Yahoo.

Product Offerings on Banks.com

Banks.com is a financial services portal containing various products and services. Banks.com provides users and subscribers with relevant financial information on the Web and provides free tools to assist visitors with financial decision-making. Banks.com is an online consumer finance marketplace aggregating information on a range of products and fees, including mortgages, taxes, credit cards, auto loans, college financing, debt management, and retirement. The Web property features various resources and advice on personal finance topics. Also included on the site is various financial calculators, a side-by-side credit card comparison tool which allows users to search for cards by category, preview the terms of certain cards and apply for a credit card online directly from the site and a library of useful articles and blogs, providing users with insight into pertinent topics. The company provides online tax preparation services and also provides a localized search initiative that allows users to browse a directory to identify and compare local and regional banks, tax preparers, mortgage service providers, and real estate professionals.

The company's addition of www.mybanks.com to the Banks.com network provides a platform that hosts user generated content on various financial topics and provides customers with an opportunity to share investment advice and ideas with each other, and discuss their experience with various financial products. The company has added an online brokerage service through MyStockFund.com whereby customers utilize a financial platform. MyStockFund.com offers fractional share investing and dollar cost averaging to build a diversified portfolio in stocks, index funds and bond funds.
