The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Barrick Gold Corporation competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Barrick Gold Corporation business.

About Barrick Gold Corporation

Barrick Gold Corporation engages in the production and sale of gold, as well as related activities, such as exploration and mine development. The company also produces copper and holds interests in a platinum group metals development project and a nickel development project, both located in Africa, a platinum group metals project located in Russia and oil and gas properties located in Canada.

The company has operating mines or projects in Canada, the United States, Dominican Republic, Australia, Papua New Guinea, Peru, Chile, Argentina, Pakistan, and Tanzania.

Properties

Goldstrike Property

The Goldstrike property is located in Elko and Eureka Counties in north central Nevada. As of December 31, 2009, the Goldstrike property included approximately 4,197 hectares of surface rights ownership/control (3,420 hectares private and 778 hectares public), and approximately 3,535 hectares of mineral rights ownership/control (2,741 hectares private and 794 hectares public). The Goldstrike property includes a total of

298 unpatented mining and millsite claims to control the public acreage.

Cortez Property

The Cortez mine is located 100 kilometers southwest of Elko, Nevada in Lander County. The Cortez joint venture directly controls an area of interest of approximately 100,561 hectares.

Lagunas Norte Mine

The Lagunas Norte mine is an open pit, heap leaching operation. The mine is located in the Alto Chicama mining district. The Alto Chicama mining district encompasses 4 concessions or mining rights totaling 20,322 hectares. The company owns the 3 primary mining concessions, encompassing 18,550 hectares. These three concessions were consolidated into a single mining concession called Acumulacion Alto Chicama. The company owns 3 additional mining concessions, encompassing 1,772 hectares.

Veladero Mine

The Veladero mine is an open pit mine using heap leaching. The Veladero mine includes the mining of gold and silver from two open pits: the Filo Federico pit and the Amable pit.

The Veladero mine is a combination of two properties the Veladero mining group, consisting of eight mining concessions owned by the Provincial Mining Exploration and Exploitation Institute (IPEEM) and operated by Minera Argentina Gold S.A. (MAGSA), a subsidiary of Barrick in Argentina; and the Ursulina Sur mining concession owned and controlled by MAGSA. These two properties cover an area of approximately 12,350 hectares. In 2009 an Addendum to the Exploitation Agreement was signed with IPEEM by which the mining properties located to the east of the Veladero mining operation were added to such mining operation. These properties are: Florencia 1; Gaby M; Río 2 and Río 3. With the execution of the Addendum, the Veladero mining properties cover an area of approximately 14,898 hectares.

Zaldivar Mine

Zaldívar is an open pit heap leach copper mine located in northern Chile. The mine is located in the Andean Precordillera in Region II of northern Chile.

Porgera Mine

Barrick (Niugini) Limited is the Manager of and holds a 95% Participating Interest in the Porgera Joint Venture (PJV), which owns and operates the Porgera Gold Mine at Porgera in the Enga Province of Papua New Guinea. The Porgera mine is located in Enga Province in the highlands of Papua New Guinea (PNG).

The company is the 60% owner and operator of the Pueblo Viejo project and Goldcorp owns a 40% interest. The Pueblo Viejo project, which is being developed as an open pit gold mine, is located in the Dominican Republic.

As of December 31, 2009, Barrick's African operations consisted of its Bulyanhulu mine, its 70% interest in the Tulawaka mine, its North Mara mine and its Buzwagi mine, all located in Tanzania and its projects included its 50% interest in the Kabanga project, located in Tanzania.

Cerro Casale Project

The company owns a 75% interest in the Cerro Casale Project, which is an undeveloped gold-copper deposit.

Joint Ventures

The company is party to a joint-venture agreement with Xstrata plc with respect to the Kabanga nickel deposit and related concession in Tanzania. During 2008, Xstrata earned its 50% interest in the project under the earn-in agreement and is the operator of the project.

Minasnioc Gold Project

In May 2010, the company acquired the Minasnioc Gold Project, which covers 1000 hectares in the Department of Huancavelica, approximately 300 kilometers southeast of Lima.

Reserves

As of December 31, 2009, the company's total proven and probable gold mineral reserves were 139.8 million ounces.

Dispositions

In 2009, the company sold silver in an amount equivalent to 25% of the life-of-mine silver produced from the Pascua-Lama project.

History

Barrick Gold Corporation was founded in 1983.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
