Such information creates your awareness about principal trends of Belk Inc. business.

About Belk Inc.

Belk, Inc. operates retail department stores primarily in the southeastern United States.

Stores

As of January 31, 2009, the company operated a total of 307 retail stores, with approximately 24.2 million selling square feet in the following 16 states: Alabama; Louisiana; Oklahoma; Arkansas; Maryland; South Carolina; Florida; Mississippi; Tennessee; Georgia; Missouri; Texas; Kentucky; North Carolina; Virginia; and West Virginia.

Merchandising

The company's stores sell national brands of fashion apparel, shoes and accessories for women, men and children, as well as cosmetics, home furnishings, housewares, fine jewelry, gifts and other types of merchandise. It also sells private label brands, which offer customers differentiated merchandise selections. Its selected stores also include hair salons, spas, restaurants, optical centers and other amenities. As of January 31, 2009, the company operated 154 fine jewelry shops in its stores under the new 'Belk and Co. Fine Jewelers' name.

The company's private brands include Kim Rogers, Choices, ND — New Directions, Madison, Be Inspired, Sophie Max, Belk Silverworks, Meeting Street, Saddlebred, Pro Tour, Red Camel, J. Khaki, Nursery Rhyme, Biltmore For Your Home, Mary Jane's Farm, Home Accents, Lorena Garcia, and Cook's Tools.

Gift Cards

The company's gift card program provides an option for customer gift-giving and enables stores to issue electronic credits to customers in lieu of cash refunds for merchandise returned without sales receipts.

Salons and Spas

As of January 31, 2009, the company owned and operated 24 hair styling salons in various store locations, 18 of which also offer spa services. The hair salons offer the latest hair styling services, as well as beauty products, including Aveda, Bumble and Bumble, and Redken. The spas offer massage therapy, skincare, nail and pedicure services and other specialized body treatments. Eight of the salons and spas operate under the name of 'Carmen! Carmen!'

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
