The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Belo Corp. business.

### **About Belo Corp.**

Belo Corp. operates as a television company. The company owns 20 television stations, including ABC, CBS, NBC, FOX, CW, and MyNetwork TV (MNTV) affiliates, and their associated Web sites, in the United States. The company also owns two local and two regional cable news channels and holds ownership interests in two other cable news channels. Additionally, as of December 31, 2009, the company managed one television station through a local marketing agreement (LMA).

### **Operations**

The company's stations are concentrated primarily in three high-population growth regions: Texas, the Northwest, and the Southwest. Six of the company's stations are located in the following four major metropolitan areas in the United States: ABC affiliate WFAA-TV in Dallas/Fort Worth; CBS affiliate KHOU-TV in Houston; NBC affiliate KING-TV and independent KONG-TV in Seattle/Tacoma; and Independent KTVK and The CW Network (CW) affiliate KASW-TV in Phoenix.

The company has a balanced portfolio of broadcast network-affiliated stations, with four ABC affiliates, five CBS affiliates, and four NBC affiliates, and one large-market station associated with each network. Its also owns two independent (IND) stations, two CW affiliates, two MNTV affiliates, and one FOX affiliate, and as of December 31, 2009,

operates one additional CW affiliate through an LMA.

The company has network affiliation agreements with ABC, CBS, NBC, FOX, CW, and MNTV. Its network affiliation agreements generally provide the station with the exclusive right to broadcast over the air in its local service area all programs transmitted by the network with which the station is affiliated.

The company also owns two regional cable news operations, Texas Cable News (TXCN) in Dallas/Fort Worth, Texas, and Northwest Cable News (NWCN) in Seattle/Tacoma, Washington, and two local cable news operations, 24/7 NewsChannel (24/7) in Boise, Idaho, and NewsWatch on Channel 15 in New Orleans, Louisiana. These operations provide news coverage in a 24-hour a day format using the news resources of the company's television stations in Texas, Washington, Oregon, Idaho and Louisiana. The company also operates, through joint ventures, two cable news channels in partnership with Cox Communications and other parties that provide local news coverage in Phoenix, Arizona (Arizona NewsChannel) and Hampton/Norfolk, Virginia (Local News on Cable). These cable news channels use the news resources of the television stations owned by the company in those markets.

### Significant Events

In April 2010, Belo Corp., Cox Media Group, Inc., The E. W. Scripps Company, Fox, Gannett Broadcasting, Inc., Hearst Television, Inc., ION Television, Media General, Inc., Meredith Corp., Nation Broadcasting Corporation Public Company Limited, Post-Newsweek Stations, Inc. and Raycom Media, Inc. announced plans to form a standalone joint venture to develop a new national mobile content service.

### History

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
