The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Beverly Hills Bancorp Inc. business.

About Beverly Hills Bancorp Inc.

Beverly Hills Bancorp, Inc. operates as the holding company for First Bank of Beverly Hills, which conducts banking and lending operations in southern California and surrounding states.

Lending Activities

The Bank's lending activities involve primarily the origination and purchase of adjustable rate real estate loans. These loans include principally loans secured by commercial and multifamily properties and loans for the construction of these types of properties. Its real estate loans are secured by real properties located throughout the United States, primarily in California and other western states.

Commercial and Multifamily Lending: The Bank's commercial and multifamily loans generally have terms of approximately 10 years. Its commercial loans are generally secured by office, retail and industrial types of properties, and its multifamily loans are secured by small- to medium –sized apartment buildings. These loans also include bridge loans secured by commercial real estate.

Construction Lending: The Bank's construction loans finance the construction of

multifamily properties and commercial properties, such as retail and industrial properties, office buildings and restaurants.

Single-family Lending: The Bank's loan portfolio also includes fixed rate single-family mortgage loans.

Other Lending: Other loans include primarily 'mezzanine loans made through a non-bank subsidiary. Mezzanine loans are generally loans to single purpose entities to provide financing to purchase real estate, where the borrower needs additional 'equity' to support the senior lender's mortgage loan on the real estate. The mezzanine loan is secured by the all of the equity interests in the borrower, not the underlying real estate.

Deposits

The Bank offers checking, NOW, money market and savings accounts and certificates of deposit generated through brokers and its money desk (wholesale deposits) and at its Calabasas branch.

Investment Portfolio

As of December 31, 2007, the Bank's investment portfolio included AAA mortgage-backed securities; Government-Sponsored Enterprise (GSE) mortgage-backed securities; Trust preferred securities; Agency securities; and Mutual funds.

History

The company was founded in 1996. It was formerly known as Wilshire Financial Services Group, Inc. and changed its name to Beverly Hills Bancorp, Inc. in 2004.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
