## Abstracts

BioCryst Pharmaceuticals, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between BioCryst Pharmaceuticals, Inc. and its competitors. This provides our Clients with a clear understanding of BioCryst Pharmaceuticals, Inc. position in the [Pharmaceuticals and Biotechnology](#) Industry.

The report contains detailed information about BioCryst Pharmaceuticals, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for BioCryst Pharmaceuticals, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The BioCryst Pharmaceuticals, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes BioCryst Pharmaceuticals, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of BioCryst Pharmaceuticals, Inc. business.

### **About BioCryst Pharmaceuticals, Inc.**

BioCryst Pharmaceuticals, Inc., a biotechnology company, engages in the design, optimization, and development of drugs that block key enzymes involved in cancer, viral infections and autoimmune diseases.

#### **Peramivir**

The company's primary product candidate is peramivir, an inhibitor of influenza neuraminidase. In 2009, the company announced the initiation of two Phase III clinical trials of i.v. peramivir for the treatment of hospitalized patients with serious influenza.

The company has collaboration with Shionogi & Co., Ltd. (Shionogi) for the development and commercialization of peramivir in Japan. In 2009, Shionogi announced positive results in two Phase III clinical trials of i.v. peramivir. In January 2010, Shionogi received marketing and manufacturing approval for i.v. peramivir in Japan.

In 2009, the company entered into an agreement with Merck Serono, S.A., through its affiliate, Ares Trading S.A., to represent it and peramivir for stockpiling opportunities in

Europe, Russia, Canada, and Singapore. Also in 2009, the company entered into an agreement with Hikma Pharmaceuticals, PLC to represent it and peramivir for stockpiling opportunities in the Middle East and North Africa, excluding Israel. In January, 2010, it entered into an agreement with moksha8 Pharmaceuticals, Inc. to represent the company and peramivir for influenza stockpiling opportunities in Brazil and Mexico.

The company has an agreement with Green Cross Corporation to develop and commercialize peramivir in Korea. Under the terms of the agreement, Green Cross would be responsible for all development, regulatory, and commercialization costs in Korea.

### Forodesine

The company's drug candidate forodesine is a transition-state analog inhibitor of the enzyme purine nucleoside phosphorylase (PNP). Forodesine has been granted Orphan Drug status by the FDA for three indications: T-cell non-Hodgkin lymphoma, including Cutaneous T-cell Lymphoma (CTCL); Chronic Lymphocytic Leukemia (CLL) and related leukemias, including T-cell prolymphocytic leukemia, adult T-cell leukemia, and hairy cell leukemia; and for treatment of B-cell acute lymphoblastic leukemia (B-ALL).

The company has a licensing agreement with Mundipharma International Holdings Limited (Mundipharma) to develop and commercialize forodesine in markets across the European Union (EU), Asia and Australia for use in oncology. It has retained full development and commercialization rights to forodesine in the rest of the world, including North America.

### Other Products

The company's other drug candidate in clinical trials is its second generation PNP inhibitor, BCX-4208. The company initiated a clinical study of BCX-4208 for the treatment of gout, which is caused by elevated levels of uric acid in blood.

### Additional Products

The company has rights to other compounds in various therapeutic areas. These compounds are in pre-clinical development and include potent inhibitors of parainfluenza, neuraminidase, hepatitis C, JAK, Kallikrein, and additional PNP inhibitors.

## Alliances

Albert Einstein College of Medicine of Yeshiva University and Industrial Research, Ltd, New Zealand (AECOM and IRL respectively): The company has licensed a series of potent inhibitors of PNP from AECOM and IRL. The primary drug candidates from this collaboration are forodesine HCl and BCX-4208.

The University of Alabama at Birmingham (UAB): The company has agreements with UAB for influenza neuraminidase and complement inhibitors.

## History

BioCryst Pharmaceuticals, Inc. was founded in 1986.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
