The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Bishop Capital Corp. business.

About Bishop Capital Corp.

Bishop Capital Corporation engages in the development and sale of real estate and has a royalty interest in a natural gas property.

Real Estate Operations

Colorado Springs, Colorado: The company has two limited partnership agreements to purchase approximately 90 contiguous acres of land in Colorado Springs, Colorado. The property surrounding the acreage is primarily retail development (restaurants, major grocery chains, gas stations, convenience stores and small retailers) to serve nearby residential developments.

Partnerships

The company, through the first partnership (Bishop Powers, Ltd.), purchased approximately 55 acres of land (comprising separate 20 and 35 acre parcels) for commercial development. The company, as general partner, has an 81% interest with the remaining 19% interest held equally by two individual limited partners who were the general partners in the second partnership (Z-H, Ltd., LLLP).

The company commenced initial development of the 20 acre parcel 1998 and is continuing to develop the remaining acreage. Of the 35 acre parcel 5 acres have been developed into Creekside Center at Galley and 20 acres were contributed to Creekside Apartments, LLLP for the construction of the apartment complex and a public road.

In 1998, the company entered into a limited partnership agreement (Creekside Apartments, LLLP) with an unrelated third party to develop and construct a 328 unit apartment complex.

The Company through the second partnership (Z-H,Ltd., LLLP) purchased approximately 35 acres of land on which the partnership constructed a recreational facility, Hitters Haven. The company, as the limited partner, had a 19% interest with the remaining 81% interest held equally by two individual general partners. In 2002, Z-H, Ltd., LLLP sold its Hitters Haven Property

Riverton, Wyoming: In 1995, the company acquired approximately 5 acres of undeveloped real estate located adjacent to a golf course in Riverton, Wyoming.

Natural Gas Royalty Interest

In 1990, the company purchased a royalty interest in certain natural gas properties located in Wyoming from an unrelated third-party. The company formed Bridger Creek Partnership (the Partnership) that allocates to the Company, as general partner, from the partnership and 80% of annual net income.

History

Bishop Capital Corporation was incorporated under the laws of the State of Colorado in 1983. The company, previously known as Bishop Cable Communications Corporation, changed its name to Bishop Capital Corporation in 1995.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
