## **Abstracts**

Bolt Technology Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Bolt Technology Corp. and its competitors. This provides our Clients with a clear understanding of Bolt Technology Corp. position in the [Energy](#) Industry.

The report contains detailed information about Bolt Technology Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Bolt Technology Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Bolt Technology Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Bolt Technology Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Bolt Technology Corp. business.

## **About Bolt Technology Corp.**

Bolt Technology Corporation engages in the manufacture and sale of marine seismic data acquisition equipment.

### Segments

The company operates in three segments: Seismic Energy Sources; Underwater Cables and Connectors; and Seismic Energy Source Controllers.

#### Seismic Energy Sources Segment

The Seismic Energy Sources segment develops, manufactures, and sells marine seismic energy sources (air guns) and replacement parts. It primarily sells two types of air guns which create acoustic waves that penetrate the ocean bed: long-life marine air guns and annular port air guns (APG gun). In addition to these types of air guns, the company manufactures and sells guns for specific applications, such as for use in existing wells.

#### Underwater Cables and Connectors Segment

The Underwater Cables and Connectors segment, through A-G Geophysical Products, Inc., develops, manufactures, and sells underwater cables, connectors, hydrophones, depth and pressure transducers, and seismic source monitoring systems (SSMS). Its marine cables and connectors provide the link from the air gun to the seismic vessel. They are injection molded of thermoplastic polyurethane designed for use with marine air gun firing lines, bulkhead connectors, and other underwater connectors required in seismic vessel operations. Its hydrophones and depth and pressure transducers relay critical data from the field near the air gun to the seismic vessel. SSMS is utilized to measure air gun depth, air pressure, and 'near field' energy output for each gun array and to provide air flow control. The company's cables and connectors, hydrophones, and transducers are used with air guns manufactured by the company, as well as air guns manufactured and sold by others.

### Seismic Energy Source Controllers Segment

The Seismic Energy Source Controllers segment, through Real Time Systems Inc. (RTS) develops, manufactures, and sells air gun controllers and synchronizers, data loggers, and auxiliary equipment. RTS products are designed to control and synchronize up to 96 air guns in a single seismic exploration vessel, as well as to provide other critical data. Its seismic energy source controllers and synchronizers are used with air guns manufactured by it, as well as air guns manufactured and sold by others.

### Customers

The company's principal customers are worldwide marine seismic exploration contractors, who operate seismic vessels for collection of seismic data in accordance with their customers' specifications or for their own seismic data libraries, and foreign national oil and gas companies. Its major customers include Compagnie Generale de Geophysique-Veritas; Bureau of Geophysical Prospective, Inc.; and Schlumberger Limited.

### Competition

The company's competitors include ION Geophysical Corporation; Sercel Inc., a subsidiary of Compagnie Generale de Geophysique-Veritas; and Seamap, a division of Mitcham Industries, Inc.

### History

Bolt Technology Corporation was founded in 1960.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

RESEARCH METHODOLOGY

DISCLAIMER

### **1. BOLT TECHNOLOGY CORP. COMPANY PROFILE**

- 1.1. Key facts
- 1.2. Financial Performance
- 1.3. Key Executives
- 1.4. Ownership and Major Holders
- 1.5. Company History

### **2. BOLT TECHNOLOGY CORP. BUSINESS OVERVIEW**

- 2.1. Business Description
- 2.2. Major Products and Services
- 2.3. Markets and Sales Activities
- 2.4. Locations, Subsidiaries, Operating Units

### **3. BOLT TECHNOLOGY CORP. SWOT ANALYSIS**

- 3.1. Overview
- 3.2. Strengths
- 3.3. Weaknesses
- 3.4. Opportunities
- 3.5. Threats

### **4. BOLT TECHNOLOGY CORP. FINANCIAL ANALYSIS**

- 4.1. Financial Statements
  - 4.1.1. Income Statement
  - 4.1.2. Balance Sheet
  - 4.1.3. Cash Flow
- 4.2. Financial Ratios
  - 4.2.1. Profitability
  - 4.2.2. Margin Analysis

- 4.2.3. Asset Turnover
- 4.2.4. Credit Ratios
- 4.2.5. Long-Term Solvency
- 4.2.6. Growth Over Prior Year
- 4.2.7. Financial Ratios Charts
- 4.3. Stock Market Snapshot

## **5. BOLT TECHNOLOGY CORP. COMPETITORS AND INDUSTRY ANALYSIS**

- 5.1. Bolt Technology Corp. Direct Competitors
- 5.2. Comparison of Bolt Technology Corp. and Direct Competitors Financial Ratios
- 5.3. Comparison of Bolt Technology Corp. and Direct Competitors Stock Charts
- 5.4. Bolt Technology Corp. Industry Analysis
  - 5.4.1. Energy Industry Snapshot
  - 5.4.2. Bolt Technology Corp. Industry Position Analysis

## **6. BOLT TECHNOLOGY CORP. NEWS & EVENTS**

- 6.1. News & PR Activity Analysis
- 6.2. IR Corporate News
- 6.3. Marketing News
- 6.4. Corporate Events

## **7. BOLT TECHNOLOGY CORP. EXPERTS REVIEW<sup>1</sup>**

- 7.1. Experts Consensus

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
