The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Boss Holdings Inc. business.

### **About Boss Holdings Inc.**

Boss Holdings, Inc., together with its subsidiaries, primarily engages in the import, marketing, and distribution of gloves, boots, and rainwear products, as well as pet supplies in the United States and internationally. The company's primary operating subsidiary is Boss Manufacturing Company (BMC).

#### **Work Gloves and Protective Wear**

The company, through BMC, imports, markets, and distributes gloves, boots, and rainwear products serving two primary markets – consumer and industrial. The end-users include companies in the agricultural, automotive, energy, lumber, mining and construction industries. BMC primarily markets its products through distributors and manufacturer representatives. BMC products are sold predominantly to customers in the United States. BMC sells to a customer base approximating 3,000 active accounts. The company is party to a long-term agreement with Caterpillar Inc. under which the company markets work gloves, safety items and other products under the CAT trademark.

#### **Promotional and Specialty Products**

The company owns Galaxy Balloons, Incorporated (Galaxy), a Cleveland, Ohio based company operating in the promotional and specialty products segment. Galaxy provides custom imprinted balloons, mini-sport balls, signature balls, exercise balls, beach balls and other inflatable products. In addition, Galaxy has broadened its product line to include various non-inflatable imprinted items including yo-yos, juggle balls, sport horns, fan-ta-sticks, holiday candles and ornaments. These items are sold exclusively through authorized distributors in the promotional products industry.

In 2009, Galaxy expanded its sport line of products to include an array of foam sport balls, full size name brand sport balls (Wilson, Rawlings and Spalding), sport luggage tags, sport and piggy banks, sport ball water bottles, and sport lanyards.

In November 2009, Galaxy acquired certain assets of AGA Balloons in Ashland, Ohio.

## Pet Supplies

The company's pet supply segment operates as Boss Pet Products, Inc. (Boss Pet), a wholly owned subsidiary of BMC. Boss Pet imports, markets and distributes pet cable restraints, collars and leads, pet toys, rawhide chews, shampoos and other pet specialty products. Boss Pet markets its products primarily to pet supply specialty, hardware, and discount retailers under proprietary brand names. In addition, Boss Pet sells products to discount retailers under privately labeled brand names. All sales in this segment are within the United States.

## History

Boss Holdings, Inc. was founded in 1893.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
