Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Boston Properties Inc. business.

### **About Boston Properties Inc.**

Boston Properties, Inc. operates as an integrated self-administered and self-managed real estate investment trust (REIT). The company owns and develops office properties in the United States. It conducts its business through its subsidiary, Boston Properties Limited Partnership.

The company's properties are concentrated in five markets—Boston, Washington, D.C., midtown Manhattan, San Francisco and Princeton, New Jersey. As of December 31, 2008, the company owned or had interests in 147 properties, totaling approximately 49.8 million net rentable square feet and structured parking for vehicles containing approximately 11.2 million square feet. The company's properties consisted of: 143 office properties comprising 123 Class A office properties (including 10 properties under construction) and 20 Office/Technical properties; 1 hotel; and 3 retail properties.

The company owns or controls undeveloped land totaling approximately 509.3 acres, which would support approximately 12.0 million square feet of development. In addition, the company has a minority interest in the Boston Properties Office Value-Added Fund, L.P. (the Value-Added Fund). As of December 31, 2008, the Value-Added Fund had investments in an office complex in San Carlos, California, an office property in Chelmsford, Massachusetts and office/technical properties in Mountain View, California.

## Tenants

As of December 31, 2008, the company's major tenants included US Government; Lockheed Martin; Citibank; Genentech; Kirkland & Ellis; Gillette; Shearman & Sterling; Weil Gotshal Manges; O'Melveny & Myers; Lehman Brothers; Parametric Technology; Accenture; Finnegan Henderson Farabow; Ann Taylor; Northrop Grumman; Biogen Idec; Washington Group International; Aramis (Estee Lauder); Bingham McCutchen; and Akin Gump Strauss Hauer & Feld.

## Real Estate Acquisitions/Dispositions

In April 2008, the company sold a parcel of land located in Washington, DC.

In May 2008, the company acquired the remaining development rights for its 250 West 55th Street development project located in New York City.

In June 2008, the company completed the acquisition of the General Motors Building at 767 Fifth Avenue in New York City.

In August 2008, the company completed the acquisitions of 540 Madison Avenue and Two Grand Central Tower located in New York City, New York; and 125 West 55th Street also located in New York City, New York.

In September 2008, the company acquired from National Public Radio (NPR) its headquarters building at 635 Massachusetts Avenue (the NPR Building) comprising approximately 211,000 net rentable square feet located in Washington, DC.

## Tax Status

The company has elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended. As a REIT, the company generally distributes approximately 90% of its net taxable income and would not be subject to federal income tax on income that it distributes to its stockholders.

## History

Boston Properties, Inc. was founded in 1970.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
