The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Botetourt Bankshares Inc. business.

### **About Botetourt Bankshares Inc.**

Botetourt Bankshares, Inc. operates as the holding company for Bank of Botetourt, which provides various banking services to individuals and small to medium sized businesses in Virginia.

As of December 31, 2009, the company operated 10 offices in 4 counties of Virginia. The main office is in Buchanan, with other Botetourt County office locations in Daleville, Eagle Rock, and Troutville.

### **Services**

The company's services include checking account, savings accounts, demand, NOW, and money market accounts, certificates of deposit, and individual retirement accounts. Other services include safe deposit boxes, notary public, medallion signature guarantees, consumer online banking, bill payment and e-statements, cash management services through business online banking, VISA travel money cards, wire transfers, direct deposit of payroll and social security checks, and automatic drafts for various accounts. It operates proprietary automated teller machines and offer surcharge free ATMs at Sheetz locations and by participating in the No SUR program, a network of surcharge-free ATMs. It also offers VISA credit and debit card services. In addition, it

offers ID Reclaim, an identity theft protection service.

## Subsidiaries

The company offers non-deposit investment products and insurance products for sale to the public through Infinex Investments, Inc., in which Buchanan Service Corporation, a wholly-owned subsidiary of the company, has a minority ownership interest.

Additionally, Buchanan Service Corporation provides insurance services for customers of it and the public through a minority ownership interest in Bankers Insurance, LLC. Its affiliation with the Virginia Bankers Association allows it to participate with a consortium of banks in the Commonwealth of Virginia to offer insurance products. Buchanan Service Corporation has a majority ownership interest in Rockbridge Title Services, LLC and Mountain Valley Title Insurance Agency, LLC, which offer title insurance to its customers and the public.

## Lending Activities

The company offers a range of lending services, including commercial loans, installment loans, residential real estate loans, construction and development loans, mortgage loans, and consumer loans.

The company's real estate loans include single and multi-family housing, farm loans, residential and commercial construction loans, and loans for commercial real estate. Its loan portfolio also includes commercial and agricultural production loans.

The company's consumer loans include loans for household expenditures, car loans, and other loans to individuals, including credit cards. Other loans and leases include loans to municipalities and loans to depository institutions.

## Investments Activities

The company invests a portion of its assets in U.S. treasury issues; government-sponsored enterprises debt instruments; state, county, and municipal obligations; and equity securities.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
