term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes BPZ Resources, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of BPZ Resources, Inc. business.

About BPZ Resources, Inc.

BPZ Resources, Inc. focuses on the exploration, development and production of oil and natural gas in Peru and Ecuador.

The company has rights and license agreements for oil and gas exploration and production covering a total of approximately 2.2 million acres, in 4 blocks in northwest Peru and off the northwest coast of Peru in the Gulf of Guayaquil. It also owns a 10% non-operated working interest in an oil and gas producing property, Block 2, located in the southwest region of Ecuador (the Santa Elena Property).

The company maintains a subsidiary, BPZ Exploracion & Produccion S.R.L. (BPZ E&P), registered in Peru through its wholly owned subsidiary BPZ Energy International Holdings, L.P., a British Virgin Islands limited partnership, and its subsidiary BPZ Energy, LLC, a Texas limited liability company. The company, through BPZ E&P, has rights and license contracts for oil and gas exploration and production covering a total of approximately 2.2 million acres, in four blocks, in northwest Peru.

The company's license contracts cover 100% ownership of various properties, including Block Z-1 (0.6 million acres), Block XIX (0.5 million acres), Block XXII (0.9 million acres) and Block XXIII (0.2 million acres).

Additionally, through its wholly owned subsidiary, SMC Ecuador Inc., the company owns a 10% non-operating working interest in an oil and gas producing property, Block 2, located in the southwest region of Ecuador (the Santa Elena Property).

The company's activities in Peru include analysis and evaluation of technical data on its Blocks, preparation of the development plans for the Blocks, including detailed engineering and design of the power plant and gas processing facilities, refurbishment of and designs for platforms to carry its drilling campaigns in the Corvina and Albacora fields in Block Z-1, procuring machinery and equipment for an extended drilling campaign, obtaining all necessary environmental and operating permits, bringing additional production on-line, seismic acquisition, obtaining detailed engineering and design of the power plant and gas processing facilities, executing a contract to purchase three LM 6000 gas fired turbines and securing the required capital and financing to conduct the plan of operation.

Reserves

As of December 31, 2009, the company had estimated net proved oil reserves of 37.5 MMBbbls, of which 27.5 MMBbbls were in the Corvina field and 10.0 MMBbbls were from the Albacora field; both fields being in Block Z-1, located offshore of northwest Peru. Of its total proved reserves, 9.9 MMBbbls (26.4%) are classified as proved developed reserves consisting of 13 wells and 27.6 MMBbbls (73.6%) are classified as proved undeveloped reserves.

History

BPZ Resources, Inc. was founded in 2001.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
