The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Brazil Fast Food Corp. business.

### **About Brazil Fast Food Corp.**

Brazil Fast Food Corp. owns, operates, and franchises a fast food hamburger restaurant chain in Brazil.

Restaurant Operations (Bob's, KFC, Pizza Hut, Doggis, and IBAL)

As of December 31, 2009, the company had 681 points of sale, including 291 kiosks and trailers, of which 59 are owned and operated by the company and the remaining 622 by its franchisees, all under the 'Bob's' trade-name. Majority of these points of sale are located in the States of Rio de Janeiro and Sso Paulo, with the remainder spread throughout major cities in other states of Brazil, except for three franchised restaurants in Angola. The major number of franchise operations outside Rio de Janeiro and Sao Paulo are in the States of Santa Catarina and Parana, both in the south of Brazil, and Minas Gerais.

As of December 31, 2009, the company had 12 own-operated stores with the brand KFC, including 11 in Rio de Janeiro State and one in São Paulo State and three own-operated stores with the brand Doggis in Rio de Janeiro. Pizza Hut operated 15 own stores in Sso Paulo.

The company's chains serve a menu of hamburgers, cheeseburgers, chicken burgers, sandwiches, hot dogs, pizza, pastas, French fries, soft drinks, juices, desserts, ice creams, and milkshakes.

## Suppliers

The company participates in long-term agreements with Coca-Cola, for its soft-drink products; Pepsi Cola (for KFC and Pizzeria Hut brands); Ambev, the Brazilian brewery company; Farm Frites, the Argentinean producer of French fries; and Sadia, a meat processor in Brazil, as well as with Novartis Nutricion for its Ovomaltine chocolate.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
