The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Bridge Capital Holdings business.

## **About Bridge Capital Holdings**

Bridge Capital Holdings operates as the bank holding company for Bridge Bank, National Association, which provides commercial and retail banking services.

The company engages in general commercial banking business, and accepts deposits, makes commercial, real estate, auto and other installment and term loans, and provides other customary banking services. It attracts the majority of its loan and deposit business from the residents and various small and middle market businesses and professional firms located in Santa Clara County. It maintains two branch offices and five loan production offices, primarily in the Silicon Valley and San Francisco Bay Areas of California.

The company provides the local business and professional community with banking services tailored to the needs of the Silicon Valley. In addition, it provides some specialized services to its customers.

### **Deposits**

The company offers a range of deposit accounts designed to attract small and medium size commercial businesses, as well as business professionals and retail customers,

including a line of checking and savings products, such as passbook savings, money market deposit accounts, which require minimum balances and frequency of withdrawal limitations, NOW accounts, and bundled accounts. Additional deposit services include a complement of convenience oriented services, including direct payroll and social security deposit, post-paid bank-by-mail, and Internet banking, including on-line access to account information. It offers courier deposit services to key locations or customers throughout its service area.

### Lending Activities

The company engages in a range of lending products designed to meet the specialized needs of its customers, including commercial lines of credit and term loans, constructions loans, and equipment loans. Additionally, it extends accounts receivable, factoring and inventory financing to qualified customers. Loans are also offered through the Small Business Administration guarantee 7(a) and 504 loan programs. It also offers asset-based loans.

The company finances real estate construction projects, primarily for the construction of owner occupied and 1 to 4 unit residential developments and commercial buildings. It directs its commercial lending principally toward businesses whose demands for credit fall within the company's lending limit.

The company also extends lines of credit to individual borrowers, and provides homeowner equity loans, home improvement loans, auto financing, credit and debit cards and overdraft/cash reserve accounts.

### Investment Portfolio

As of December 31, 2009, the company's investment portfolio included the U.S. government agencies; and mortgage backed securities.

### History

Bridge Capital Holdings was founded in 2000.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
