This sort of company's information will assist and strengthen your

company's decision-making processes.

In the part that describes Brightec, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Brightec, Inc. business.

About Brightec, Inc.

Brightec, Inc. engages in the development and marketing of luminescent films incorporating luminescent or phosphorescent pigments in the United States.

Products

The company markets and sells three principal types of products, including brightec films; brightec consumer products; and brightec patch products.

Brightec Film Products

The company's glow-in-the-dark film (GITD Film) is available in various versions appropriate for commonly used commercial printing technology, including offset and flexo printing, laser and inkjet printing, and 'print on demand' digital technologies. It offers its GITD Film in sheets and rolls to permit use with existing printing presses and in common converting equipment.

For the wide format and print-on-demand industry, the company offers various print receptive versions of its GITD Film (including UV, Water-Based Inkjet, Solvent Inkjet and Laser) that are suitable for use with specific printing technologies and various backings (paper and pressure sensitive adhesive) for specific end uses.

Brightec Consumer Products

The company offers a line of children puzzles and children stickers under the brand name PlayGlo. It offers PlayGlo consumer products (jigsaw puzzles and stickers) to various retail stores, including toy stores, bookstores, gift stores, and other general merchandise resellers in specific geographic regions of the United States. PlayGlo puzzles and stickers are manufactured based on Brightec GITD Film.

Brightec Patch Products

The company plans to produce Brightec Fabric, initially in development quantities, to be used as a base material for making Brightec Patch Products, which would be attached to apparel, bags and other items and offered for sale as finished patch products. Brightec plans to create and offer various Patch Products, including apparel products.

Suppliers

The luminescent pigments used in production are available from the Specialty Materials Group of Honeywell, Inc. and United Mineral and Chemical Company.

Competition

The company's competition for ink jet and laser paper includes companies that manufacture photographic paper, such as Hewlett-Packard, Kodak, and Cannon. Its competition for the Brightec Consumer Products includes companies that manufacture consumer products for children, including puzzle manufacturers, such as Ravensburger, Ceaco, and White Mountain; and sticker producers, such as Sandy Lion, Mrs. Grossman's, and Hallmark.

History

The company was founded in 1992. It was formerly known as Advanced Lumitech, Inc. and changed its name to Brightec, Inc. in 2006.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to

the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
