The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Broadway Financial Corp. business.

About Broadway Financial Corp.

Broadway Financial Corporation operates as the holding company for Broadway Federal Bank, f.s.b. that offers savings and loan products principally in California.

The company has four banking offices in Los Angeles, one banking office located in the nearby City of Inglewood and two loan production offices in the Cities of Irvine and Torrance.

Lending Activities

The company's loan portfolio consists primarily of mortgage loans which are secured by multi-family properties, commercial real estate, including churches and one to four-family properties. The remainder of the loan portfolio consists of commercial business loans, construction loans, and consumer and other loans.

Multi-Family and Commercial Real Estate Lending

The company originates multi-family and commercial real estate loans, including loans secured by church properties. These loans are secured primarily by multi-family dwellings or by properties used for business or religious purposes, such as small office

buildings, health care facilities and retail facilities located in its primary market area and church buildings located in various communities throughout the United States.

One to Four-Family Mortgage Lending

The company also originates adjustable-rate loans (ARMs) and fixed rate loans secured by one to four-family (single-family) residences, with maturities of approximately 30 years.

Commercial Lending

The company originates and purchases non-real estate commercial loans that are secured by business assets, the franchise value of the business, if applicable, and individual assets, such as deposit accounts, securities, and automobiles.

Construction Lending

The company provides loans for construction of single-family, multi-family and commercial real estate projects, and for land development.

Consumer Lending

The company's consumer loans primarily consist of loans secured by savings accounts.

Investment Portfolio

The company invests in securities issued by the federal government and federal agencies, residential mortgage-backed securities, and other investments.

Deposits

The company's deposits principally consist of passbook savings accounts, non-interest bearing checking accounts, NOW and other demand accounts, money market accounts, and fixed-term certificates of deposit.

History

Broadway Financial Corporation was founded in 1995.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
