pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Brookfield Infrastructure Partners L.P. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Brookfield Infrastructure Partners L.P. business.

About Brookfield Infrastructure Partners L.P.

Brookfield Infrastructure Partners L.P. owns and operates infrastructure assets. The company's operations consist principally of the ownership and operation of utilities, fee for service, timber and social infrastructure operations.

Utilities

The company's utilities operations are comprised of regulated businesses. Its utilities assets are located in Australia, Chile, New Zealand, Europe, and Canada.

Dalrymple Bay Coal Terminal (DBCT), Australia: DBCT is a port facility which exports metallurgical and thermal coal mined in the Bowen Basin region of Queensland, Australia.

Transelec Chile S.A. (Transelec), Chile: Transelec is an electricity transmission system in Chile, with approximately 8,200 km of transmission lines. Transelec's system includes 100% of Chile's 500 kV transmission lines, and approximately 45% and 95% of the 220 kV and 154 kV lines in Chile, respectively.

Great Lakes Power Transmission L.P. (Ontario Transmission), Canada: Ontario Transmission's assets consist of approximately 550 km of 44 kV to 230 kV transmission lines in the province of Ontario.

Powerco Limited (Powerco), New Zealand: Powerco is a provider of regulated electricity and gas distribution services, with approximately 410,000 connections across a service area of 39,000 square kilometers on the North Island of New Zealand.

International Energy Group (IEG Connections), Europe: IEG Connections is an independent 'last mile' natural gas and electricity connections provider in the U.K. IEG Connections' UK business is a natural gas and electricity connections business servicing approximately 394,000 customers.

Fee for Service

Fee for service assets located in the United States, Australia, Europe and China, are held directly, through consortiums and through the company's interest in Prime. NGPL, WestNet Rail, Euroports, TGN and IEG Distribution are directly held by Prime.

Natural Gas Pipeline Company of America (NGPL), U.S.

NGPL is a natural gas transmission pipeline and storage system in the United States. NGPL's transportation system extends approximately 15,500 km and delivers approximately 2.2 trillion cubic feet of natural gas per annum. NGPL also has seven major storage facilities with a combined working gas capacity of 275 billion cubic feet, or BCF.

WestNet Rail Holdings No. 1 Pty Ltd. (WestNet Rail), Australia: WestNet Rail is a rail infrastructure operator and rail access provider in Western Australia, or WA, with a long-term arrangement to lease track from the WA government. WestNet Rail leases and operates approximately 5,100 km of track and related infrastructure in southwestern Australia which serves as a crucial transport link in the region.

BBI Port Acquisitions (UK) Limited (PD Ports), U.K: PD Ports is a port operator in the U.K, with approximately 2,000 acres of land, mainly operating as the statutory harbour authority, or SHA, out of Teesport and Hartlepool in the north of the U.K.

Euroports Holdings s.à.r.l. (Euroports), Europe and China: Euroports owns a portfolio of

seven port concession businesses in key strategic locations throughout Europe and in China. Euroports is a diversified port operator, handling heavy dry bulk, specialty dry bulk, liquid bulk, general cargo and containers. Euroports handles approximately 50 Mtpa of cargo.

Tasmania Gas Network (TGN), Australia: TGN is the natural gas distributor in Tasmania, supplying gas to residential, commercial and industrial customers via its distribution networks. With approximately 730 km of distribution pipeline, it delivers approximately 2 billion cubic feet of gas per annum to approximately 6,500 connections across Tasmania.

International Energy Group (IEG Distribution), Europe: IEG Distribution is a sole gas distributor of liquid petroleum gas, or LPG, and natural gas in the Channel Islands and Isle of Man, or the Offshore Islands. IEG Distribution's business on the Offshore Islands consists of an unregulated natural gas and LPG distribution and supply business.

Timber

The company's timber operations consist of timberlands located in the coastal region of British Columbia, Canada and the Pacific Northwest region of the United States.

Longview Timber Holdings, Corp. (Longview), U.S.: Longview owns approximately 651,000 acres of freehold timberlands in Oregon and Washington with an estimated merchantable inventory of 23.7 million cubic meters of timber, primarily comprised of Douglas-fir and hemlock with a yield of 2.6 million cubic meters.

Island Timberlands Limited Partnership (Island Timberlands), Canada: Island Timberlands owns approximately 634,000 acres of freehold timberlands located principally on Vancouver Island with an estimated merchantable inventory of 58.0 million cubic meters of timber, that is primarily comprised of Douglas-fir, hemlock and cedar and with a sustainable yield of 1.8 million cubic meters. Island Timberlands also owns approximately 33,000 acres of 'higher and better use', or HBU, lands.

Social Infrastructure

The company has an interest in three social infrastructure assets which are PPPs, namely a 50% interest in Long Bay Forensic and Prison Hospitals located in Sydney, Australia comprised of a 135-bed forensic hospital, 85-bed prison hospital and administration building; a 30% interest in Peterborough Hospital located in

Peterborough, United Kingdom comprised of a 612-bed acute hospital, 102-bed mental health unit and an integrated care center; and a 50% interest in Royal Melbourne Showgrounds located in Melbourne, Australia consisting of a special purpose exhibition facility on a 19-hectare site comprising office complexes, open air arenas and large scale tension structures.

History

Brookfield Infrastructure Partners L.P. was founded in 2007.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
