Such information creates your awareness about principal trends of Brunswick Bancorp business.

About Brunswick Bancorp

Brunswick Bancorp operates as the bank holding company for Brunswick Bank & Trust Company (the Bank). The Bank also has a wholly owned investment subsidiary BTB Investment Corp. Inc. The Bank generates commercial, mortgage and consumer loans and receives deposits from customers located primarily in Central New Jersey with primary emphasis on Middlesex and Monmouth Counties. It operates under a state bank charter and provides full banking services.

The company also owns 100% of the common stock of Brunscor Realty, a corporation that holds one of the Bank's parking lots as a rental property. As a secondary function, the company purchases loan participations.

The Bank maintains its head office in New Brunswick, New Jersey and operates out of its head office and 6 branch offices in Monmouth and Middlesex Counties. The Bank is a full service commercial bank and offers the services generally performed by commercial banks of similar size and character. Such services include: checking, savings and time deposit accounts, certificates of deposit, secured and unsecured personal loans, commercial loans, residential and commercial real estate loans and internet banking. The Bank also provides trust services.

The primary emphasis of the company's lending activities is in the commercial lending area. The company's lending base is in the commercial area, concentrating both in commercial first mortgage loans and commercial loans secured by certificates of deposit, equity, securities, and other forms of collateral. The company participates in certain loans with the Bank as permitted by the Federal Reserve Bank of New York.

Loan Portfolio

The company's loan portfolio, as of December 31, 2005, includes commercial loans, construction first mortgage loans, commercial first mortgage loans, residential loans, and installment loans.

Investment Portfolio

The company's investment portfolio, as of December 31, 2005, includes Obligations of other U.S. Government agencies; and Other securities.

Deposits

The company's deposits, as of December 31, 2005 comprise Non-interest bearing Demand deposits; and Interest bearing Savings deposits, Time deposits, and NOW demand deposits.

History

Brunswick Bancorp was founded in 1970.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
