Such information creates your awareness about principal trends of Burberry Group plc business.

### **About Burberry Group plc**

Burberry Group plc engages in the designing, sourcing, manufacturing, and distribution of apparel and accessories through its own retail stores and wholesale customers worldwide. The company also licenses third parties to manufacture and distribute products using the 'Burberry' brand.

The company's products include apparel for women, men and children and accessories, such as handbags, scarves, small leather goods and silks. It also offers quilted coats, duffle coats, rubber-backed raincoats, kilt skirts, and cashmere scarfs. Additionally, it licenses third parties to manufacture and distribute products using, the Burberry brand. The company also maintains licensing relationships in specialized product categories, such as eyewear and fragrance.

The company sells its products in Europe, North America, Asia and the Middle East through its own directly operated stores and wholesale customers; licensing activity is also carried out, principally in Japan. At 30 September 2004 Burberry operated 151 retail locations consisting of 57 Burberry stores, 70 concessions and 24 outlet stores. Its wholesale customers include department stores, specialty retailers and franchise partners.

## Significant Events

Burberry Group plc has formed a joint venture covering parts of the Middle East with its franchisee, The Jashanmal Group. The joint venture has created a new company, Burberry Middle East LLC, headquartered in Dubai. Burberry Middle East would manage all Burberry retail and wholesale distribution within the United Arab Emirates markets, including Dubai and Abu Dhabi, as well as Qatar, Oman and Kuwait.

Burberry Group plc has signed the joint venture agreement with its licensing partners, Sanyo Shokai, Ltd. and Mitsui & Co., Ltd., in Japan. The venture, majority owned by Burberry, would develop the retail distribution of Burberry's international non-apparel products in Japan.

## History

Burberry Group plc was founded in 1856.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
