The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Bure Equity AB business.

## **About Bure Equity AB**

Bure Equity AB operates as an investment company, investing mainly in unlisted companies in the service sector in Sweden. As of December 31, 2004, its investment portfolio comprised 16 companies. The companies are spread across different sectors with a focus on IT, training and education, and media.

### Investments

### System

System provides IT consultancy services for small and medium-sized enterprises (SMEs) and Global Resource Planning (ERP), systems development and management services for large companies. The clients include approximately 3,800 companies in different sectors, including trade, industry, forestry and health care.

### Cygate

Cygate provides products and services for building and development of secure and managed IP network solutions. The service offering ranges from design, operation and maintenance to monitoring, management and 24x7 support. The Cygate Group

operates in the Nordic countries through subsidiaries in Sweden, Finland, Denmark, and via partners in Norway. The company's clients include the Stockholm County Council, Systembolaget, Comhem, Nokia, VAG, Synoptik, Reuters and UPC.

Cygate offers secure IP network solutions for local and global networks, broadband and wireless networks. Based on the IP platform, network applications such as IP telephony, storage, security and servers can be easily implemented.

### Carl Bro Group

Carl Bro Group operates as an international consulting engineering company and provider of technical consulting services in Scandinavia. Its Building & Civil Engineering unit provides consulting services for structural engineering, planning and design of construction and infrastructure projects. Its Water & Environment unit provides solutions for waste water, drinking water, solid waste management, contaminated soil and water. Its Energy unit covers all parts of the energy chain from dimensioning of power generation capacity to production development and power distribution/transmission. Its Industry & Marine unit offers services related to logistics and production, automation, process development, industrial design, industrial environment, ship design and ship inspection.

### Mercuri International

Mercuri International operates in approximately 40 countries, primarily through wholly owned subsidiaries or via franchisees and partners. Every year, the company carries out around 5,000 development projects in close collaboration with its clients.

### Citat

Citat helps its clients to improve the efficiency of their marketing and communication as a means for nurturing their brands and achieving their business objectives. Through a combination of consulting services, system solutions and production, the clients' communication strategies are realized and their processes streamlined. Citat can fulfil most communication needs, such as catalogues, advertisements, customer and employee magazines, sales materials, annual reports, training courses, Web sites, intranets, etc. Citat can offer its clients end-to-end solutions and works according to an outsourcing business model. Citat's clients include Volvo, Ericsson, AstraZeneca, H&M, TeliaSonera, ABB and Handelsbanken.

## Vittra Utbildning

Vittra Utbildning strives to prepare children and young people to participate in society as conscious citizens, to learn for life and not just for school. Vittra works according to an educational model based on an individual development plan for each pupil. This plan consists of three equally important facets; personal development, knowledge development and learning to learn. At the same time, Vittra has established common ground rules based on the three guiding principles of personal responsibility, diversity and clarity. Vittra has around 26 preschools, compulsory schools and secondary schools in the Gothenburg and Stockholm areas and in Halland, Skane and Ostergotland.

## Retea

Retea is active in four business areas, all of which offer clients in-depth expertise in development of networks for power supply, telecom and datacom. Its Power Networks division offers consulting services in power distribution and outdoor lighting, as well as relay protection, control and monitoring, and

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
