The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of BV Financial, Inc. business.

## About BV Financial, Inc.

BV Financial, Inc. operates as the holding company for Bay-Vanguard Federal Savings Bank that provides various financial services in Maryland. The company operates as a community-oriented financial institution offering traditional financial services to consumers and businesses in its market area.

#### Market Area

The company operates through its main office located in Baltimore County, Maryland. In addition to its main office, the company operates two branch offices in Baltimore City and two branch offices in Anne Arundel County.

## **Lending Activities**

The company's loan portfolio consists primarily of one- to four-family residential real estate loans. Its loan portfolio includes mobile home loans, construction loans, multifamily, commercial real estate loans, and consumer loans.

One- to Four-Family Residential Real Estate Loans: The company's primary lending activity is the origination of mortgage loans to enable borrowers to purchase or

refinance existing homes in its market area. It offers adjustable-rate mortgage loans with interest rates and payments that adjust annually or every three years. It originates second mortgage loans on one- to four-family residential real estate properties under the same underwriting criteria utilized for its originations of one- to four-family real estate loans. It also originates home equity loans and lines of credit.

Mobile Home Loans: The company originates mobile home loans directly and purchase mobile home loans from Forward National and Mainland Financial, which specialize in mobile home lending.

Construction Loans: The company originates loans to individuals and builders to finance the construction of residential dwellings. It also makes construction loans for commercial development projects, including condominiums, apartment buildings, mixed-use properties with residential units, as well as retail space, and owner-occupied properties used for business.

Multi-Family and Commercial Real Estate Loans: The company offers fixed rate and adjustable-rate mortgage loans secured by multi-family and commercial real estate. Its multi-family and commercial real estate loans are generally secured by condominiums, apartment buildings, and mixed-use properties with residential units, as well as retail space. It also originates loans secured by undeveloped and developed land.

Other Consumer Loans: The company's consumer loans are primarily loans secured by passbook or certificate accounts, automobile and boat loans, and secured personal loans.

#### **Investment Activities**

As of June 30, 2009, the company's investment portfolio consisted primarily of the U.S. Treasury obligations and federal agency securities, mortgage-backed securities issued primarily by Fannie Mae, Freddie Mac and Ginnie Mae, and a mutual fund that invests in adjustable-rate mortgages.

#### **Deposits**

The company's deposits include checking accounts, NOW, and money market accounts, passbook and savings accounts, and certificates of deposit.

## Competition

The company's customers include Bank of America Corporation, Wachovia Corporation, M&T Bank Corporation, PNC Financial Services Group, Inc., BB&T Corporation, and Sun Trust Banks, Inc.

History

BV Financial, Inc. was incorporated in 1873.

# **ANALYSIS FEATURES**

# **SWOT Analysis**

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

## **Enhanced SWOT Analysis**

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### **PESTEL Analysis**

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

# Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

## IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

# **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

# **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

# Reputation

# Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?
Rare?
Costly to imitate?
Organized properly?
