The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of California First National Bancorp business.

About California First National Bancorp

California First National Bancorp operates as the holding company for California First Leasing Corp. (CalFirst Leasing) and California First National Bank (CalFirst Bank) that engage in leasing and banking activities in the United States.

CalFirst Leasing and CalFirst Bank focus on leasing and financing capital assets. CalFirst Bank also provides business loans to fund the purchase of assets leased by third parties, including CalFirst Leasing, and provides commercial loans to businesses. CalFirst Bank gathers deposits from a centralized location primarily through posting rates on the Internet.

Leasing Activities

The company leases and finances capital assets used by businesses and organizations, with a focus on high technology systems and other assets. The leases are structured individually and would provide end-of-term options to accommodate various customers' objectives.

In addition to computer systems and networks, property leased includes automated manufacturing and distribution management systems, production systems, printing

presses, and warehouse distribution systems. Telecommunications systems include digital private branch equipment and switching equipment, as well as voice over Internet protocol (VoIP) systems, wireless networks, and satellite tracking systems. Retail point-of-sale and inventory tracking systems often integrate computers, scanners, and software. Other electronic equipment leased includes ultrasound and medical imaging systems, computer-based patient monitoring systems, testing equipment, and copying equipment. In addition, the company leases various non-high technology property, including oil and gas production equipment, machine tools, school buses, trucks, exercise equipment, and office and dormitory furniture.

CalFirst Leasing and CalFirst Bank provide leasing and financing to customers throughout the United States and across a breadth of industries and disciplines, including commercial, industrial and financial companies, as well as government and non-profit entities. Through its lease purchase operations, CalFirst Bank purchases lease receivables on a non-recourse basis from other intermediaries.

Lending Activities

The company provides business loans to fund the purchase of assets leased by third parties. CalFirst Bank's commercial loan portfolio consists primarily of purchased participations in syndicated transactions originated by other financial institutions. Commercial loan products originated directly include lines of credit, term loans, and commercial mortgages.

Investment Portfolio

As of June 30, 2010, the company's investment portfolio included corporate bonds; U.S. Treasury securities; and mutual fund investment.

Deposits

The company offers two types of interest-bearing checking accounts, savings accounts and three month to three year certificates of deposit (CDs) to taxable and IRA depositors.

Customers

The company primarily serves middle-market companies, private and state-related educational institutions, municipalities, and other not-for-profit organizations and

institutions.

History

California First National Bancorp was founded in 1977.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
