## Abstracts

California Water Service Group Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between California Water Service Group and its competitors. This provides our Clients with a clear understanding of California Water Service Group position in the [Utilities](#) Industry.

The report contains detailed information about California Water Service Group that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for California Water Service Group. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The California Water Service Group financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes California Water Service Group competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of California Water Service Group business.

## **About California Water Service Group**

California Water Service Group, through its operating subsidiaries, provides water utility and other related services in California, Washington, New Mexico, and Hawaii. The company engages in the production, purchase, storage, treatment, testing, distribution, and sale of water for domestic, industrial, public and irrigation uses, and for fire protection. The company also provides non-regulated water-related services under agreements with municipalities and other private companies. Its non-regulated services include water system operation, billing and meter reading services. The non-regulated operations also include the lease of communication antenna sites, lab services, and promotion of other non-regulated services.

The company's operating subsidiaries include California Water Service Company (Cal Water); New Mexico Water Service Company (New Mexico Water); Washington Water Service Company (Washington Water); Hawaii Water Service Company, Inc. (Hawaii Water); and CWS Utility Services and HWS Utility Services LLC (collectively Utility Services).

### **Regulated Business**

California water operations are conducted by the Cal Water and CWS Utility Services

entities, which provide service to approximately 467,100 customers in 83 California communities through 26 separate districts. Hawaii Water provides service to approximately 4,200 water and wastewater customers on the islands of Maui and Hawaii, including resorts and condominium complexes.

Washington Water provides domestic water service to approximately 15,600 customers in the Tacoma and Olympia areas. New Mexico Water provides service to approximately 7,800 water and wastewater customers in the Belen, Los Lunas and Elephant Butte areas in New Mexico.

The company operates the City of Hawthorne and the City of Commerce water systems under lease agreements. The City of Hawthorne water system, which is located near the Hermosa-Redondo district, serves about half of Hawthorne's population.

### Non-Regulated Businesses

Under other contract arrangements, the company operates municipally owned water systems, privately owned water systems, and recycled water distribution systems. Non-regulated activities consist primarily of: operating water and waste water systems, which are owned by other entities; providing meter reading and billing services; leasing communication antenna sites on its properties; operating recycled water systems; providing lab services for water quality testing; marketing and billing of optional third party insurance program to its residential customers; selling surplus property; and other services as requested by the client.

The company's wholly-owned subsidiary HWS Utility Services, LLC, has contracts to operate and maintain water and wastewater systems in Hawaii. It provides meter reading and customer billing services for various municipalities in California. The company also provides sewer and refuse billing services to various municipalities. It leases antenna sites to telecommunication companies, which place equipment at various company-owned sites.

### History

California Water Service Group was founded in 1926.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
