The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Camco Financial Corp. business.

About Camco Financial Corp.

Camco Financial Corporation, a financial services holding company, provides financial products and services in Ohio, Kentucky, and West Virginia. The company's wholly owned subsidiaries include Advantage Bank and Camco Title Agency, Inc.

Lending Activities

The company's lending activities include the origination of commercial real estate and business loans, consumer loans, and conventional fixed-rate and adjustable-rate mortgage loans for the acquisition, construction, or refinancing of single-family homes located in its primary market areas. It also originates construction and permanent mortgage loans on condominiums, two- to four-family, multi-family (over four units) and nonresidential properties.

Residential Loans: A portion of the lending activity of the company is the origination of fixed-rate and adjustable-rate conventional loans for the acquisition, refinancing, or construction of single-family residences. The interest rate adjustment periods on adjustable-rate mortgage loans (ARMs) offered by the company are generally one, three, and five years.

Construction and Development Loans: The company offers residential construction loans both to owner-occupants and to builders for homes being built under contract with owner-occupants. It also makes loans to persons constructing projects for investment purposes. It offers construction loans to owner-occupants at adjustable-rate long-term loans on which the borrower pays only interest on the disbursed portion during the construction period, which is usually 9 months.

Nonresidential Real Estate Loans: The company originates loans secured by mortgages on nonresidential real estate, including retail, office, and other types of business facilities. Nonresidential real estate loans are generally made on an adjustable-rate basis for terms of approximately 10 years.

Consumer and Other Loans: The company makes various types of consumer loans, including loans made to depositors on the security of their savings deposits, automobile loans, home improvement loans, home equity line of credit loans, and unsecured personal loans. Home equity loans are made at fixed and variable rates of interest for terms of up to 15 years. Most other consumer loans are generally made at fixed rates of interest for terms of up to 10 years.

Investment Portfolio

As of December 31, 2009, the company's investment portfolio included securities of U.S. government sponsored enterprises; corporate equity securities; and mortgage-backed securities.

Deposits

As of December 31, 2009, the company's deposits included noninterest-bearing checking accounts; NOW accounts; money market demand accounts; passbook and statement savings accounts; and certificates of deposit.

History

Camco Financial Corporation was founded in 1970.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
