The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Canadian Natural Resources Limited business.

About Canadian Natural Resources Limited

Adams Golf, Inc. engages in the design, assembly, marketing, and distribution of golf clubs for all skill levels. The company's products include Idea a7 and a7 OS irons and hybrids, Speedline Fast 10 and Speedline 9032 drivers, Speedline Fast 10 hybrid fairway woods, Idea Pro Black I-woods and irons, Idea Tech a4 and a4 OS I-woods and irons, Idea Pro Gold I-woods and irons and Insight Tech a4 and a4 OS drivers and hybrid-fairway woods.

Products

Irons

In July 2009, the company launched its Idea a7 line of hybrid iron sets and, in August 2009, the company launched its Idea a7 OS line of hybrid irons and integrated sets. The a7 irons are offered in an eight piece men's and senior's sets, with two graphite-shafted hybrid irons integrated into each set.

The company also offers multiple different color versions of the Idea a7 OS Women's 14

piece set that includes a 460cc titanium driver, three fairway woods, an eight piece Women's Idea a7 OS iron set with three i-woods integrated into the set, a putter and a bag. Additionally, the company offers the Idea a7 OS Max irons which are offered in an all hybrid eight piece men's, women's and senior's set.

In September 2008 the company launched the Idea Tech a4 and a4OS hybrid irons sets and hybrid irons and integrated sets. The a4 irons feature six forged cavity back irons integrated with two graphite-shafted hybrids. The Idea Tech a4 OS irons are offered in three different eight piece configurations—one for men, one for women, and one for seniors.

Drivers

The company offers different driver models based on the shape, size and material used in the club head. The company's driver heads are made of titanium, alloy and/or carbon fiber, depending on the model. The shafts of its drivers are graphite. During 2009, the company launched the Speedline 9032 drivers and then in January 2010, the company launched the third generation of Speedline drivers called the Speedline Fast 10 drivers. The Speedline Fast 10 driver is offered in standard and draw variations with various lofts and shaft flexes.

Fairway Woods

During 2010, the company launched the Speedline Fast 10 fairway woods. The Speedline fairway woods feature milled sole plates and the design of placing weight pads to match the swing characteristics of various golfers. The Speedline Fast 10 fairway woods are offered in standard and draw variations with various lofts and shaft flexes. The company offers various individual hybrids in the Idea a7 and a7 OS, Idea Pro Black, Idea Tech a4, a4 OS, Idea a3, a3 OS, and Idea Pro Gold lines.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
