The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Capital Southwest Corporation business.

About Capital Southwest Corporation

Capital Southwest Corporation, a business development company, operates as a venture capital investment company. The company's investments are focused on expansion financings, management buyouts, recapitalizations, industry consolidations, and early-stage financings in various industries. The company's portfolio is a composite of companies in which it has major interests, and various developing companies and marketable securities of publicly-owned companies. The company also provides managerial assistance to the companies in which it invests.

Investments

The company, as of March 31, 2007, made investments in 12 Companies, including Heelys, Inc.; The RectorSeal Corporation; Palm Harbor Homes, Inc.; Encore Wire Corporation; Alamo Group, Inc.; Media Recovery, Inc.; Lifemark Group; The Whitmore Manufacturing Company; Hologic, Inc.; Texas Capital Bancshares, Inc.; PETSMART, Inc.; and Extreme International, Inc.

Heelys, Inc.

Heelys, Inc., Carrollton, Texas, manufacturers and markets specialty stealth skate

footwear, equipment and apparel under the brand name Heelys. The company manufactures its products in China and Korea and distributes them through domestic and international sporting goods chains, department and lifestyle stores and specialty footwear retailers.

The RectorSeal Corporation

The RectorSeal Corporation, Houston, Texas, with facilities in Texas, New York and Idaho, manufactures specialty chemical products, including pipe thread sealants, firestop sealants, plastic cements and other formulations for plumbing, HVAC, electrical and industrial applications. The company also makes special tools for plumbers and systems for containing smoke from building fires. RectorSeal's subsidiary, Jet-Lube, Inc., with plants in Texas, England and Canada, produces anti-seize compounds, specialty lubricants and other products used in industrial and oil field applications. Another subsidiary produces and sells automotive chemical products. RectorSeal also owns a 20% equity interest in The Whitmore Manufacturing Company.

Palm Harbor Homes, Inc.

Palm Harbor Homes, Dallas, Texas, is an integrated manufacturer and retailer of manufactured and modular housing produced in 14 plants and sold in 27 states by 107 company-owned retail stores and builder locations and approximately 350 independent dealers, builders and developers. The company provides financing through its 80% owned subsidiary, CountryPlace Mortgage, and sells insurance through its subsidiary, Standard Casualty. Palm Harbor's traditional manufactured homes and its upscale modular homes are designed to meet the need for attractive, affordable housing.

Encore Wire Corporation

Encore Wire Corporation, McKinney, Texas, manufactures a line of copper electrical building wire and cable, including non-metallic sheathed, underground feeder and THHN wire and cable and also armored cable for residential, commercial and industrial construction. Encore's products are sold through distributors and building materials retailers.

Alamo Group, Inc.

Alamo Group Inc., Sequin, Texas, is a major designer, manufacturer and distributor of heavy-duty, tractor and truck mounted mowing and other vegetation maintenance

equipment, mobile excavators, street-sweeping and snow removal equipment and replacement parts. Alamo Group operates 16 manufacturing facilities and serves governmental, industrial and agricultural markets in North America, Europe, and Australia.

Media Recovery, Inc.

Media Recovery, Inc., Dallas, Texas, provides datacenter supplies and services to corporate customers through its direct sales force. Its Shockwatch division manufactures monitoring devices used to detect mishandled shipments and devices for monitoring material handling equipment. Media Recovery's subsidiary, The Damage Prevention Company, Denver, Colorado, manufactures dunnage products used to prevent damage in trucking, rail and export container shipments.

Lifemark Group

Lifemark Group, Hayward, California, owns and operates cemeteries, mausoleums and mortuaries. Lifemark's operations, all of which are in California, include a major cemetery and funeral home in San Mateo, a mauso

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
