company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Capitol City Bancshares Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Capitol City Bancshares Inc. business.

About Capitol City Bancshares Inc.

Capitol City Bancshares, Inc. operates as the holding company for Capitol City Bank & Trust Company, which provides commercial banking services in the United States.

The company serves the residents of the City of Atlanta and Fulton, DeKalb, Chatham, Richmond, and Dougherty Counties.

The company operates a full-service banking business and engages in a range of commercial banking activities, including accepting customary types of demand and timed deposits, making individual, consumer, commercial, and installment loans, money transfers, safe deposit services, and making investments in the U.S. government, and municipal securities. It offers its customers various checking and savings accounts. The installment loan department makes both direct consumer loans and also purchases retail installment contracts from sellers of consumer goods.

As of December 31, 2009, the company had correspondent relationships with SunTrust Bank of Atlanta, Georgia; Wachovia National Bank of Georgia; and The Federal Home Loan Bank of Atlanta. The correspondent banks provide certain services to it, such as buying and selling federal funds, handling money fund transfers and exchanges, shipping coins and currency, providing security and safekeeping of funds and other

valuable items, handling loan participation, and furnishing management investment advice on its securities portfolio.

The company offers demand accounts, savings accounts, money market accounts, certificates of deposit, and IRA accounts to customers. Loans are made to consumers and small businesses. Its loan portfolio comprises loans made to small businesses and includes loans made through the Small Business Administration. Consumer loans include first and second mortgage loans, home equity loans, auto loans, and signature loans.

As of December 31, 2009, the company's investment portfolio included U.S. government and federal agencies (includes U.S. treasury securities) and other securities, including equity securities.

History

Capitol City Bancshares, Inc. was founded in 1994.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
