In the part that describes Capitol Federal Financial competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Capitol Federal Financial business.

About Capitol Federal Financial

Capitol Federal Financial operates as the holding company for Capitol Federal Savings Bank, which provides financial services in Kansas.

The bank's main office is located in Topeka, Kansas. It has a network of 46 branches located in 9 counties throughout the state of Kansas and 2 counties in Missouri. It primarily serves the metropolitan areas of Topeka, Wichita, Lawrence, Manhattan, Emporia, and Salina, Kansas; and a portion of the metropolitan area of greater Kansas City. In addition to providing full service banking offices, the bank also provides its customers telephone and Internet banking capabilities.

The bank attracts retail deposits from the general public and invests those funds primarily in permanent loans secured by first mortgages on owner-occupied, one- to four-family residences. It also originates consumer loans, loans secured by first mortgages on non-owner-occupied one- to four-family residences, multi-family and commercial real estate loans, and construction loans.

Lending Activities

One- to Four-Family Residential Real Estate Lending: The bank originates and services

conventional mortgage loans, or loans not insured or guaranteed by a government agency. It also originates Federal Housing Administration (FHA) insured loan products which are generally sold, along with the servicing of these loans.

Construction Lending: The bank also originates construction-to-permanent loans primarily secured by one- to four-family residential real estate.

Consumer Lending: The bank offers various secured consumer loans, including home equity loans and lines of credit, home improvement loans, auto loans, and loans secured by savings deposits. It also originates unsecured loans.

Multi-family and Commercial Real Estate Lending: The bank's multi-family and commercial real estate loans are secured primarily by multi-family dwellings and small commercial buildings generally located in its market areas.

Deposits

The bank offers various deposit accounts having a range of interest rates and terms, which include savings accounts, money market accounts, interest-bearing and non-interest-bearing checking accounts, and certificates of deposit with terms ranging from 91 days to 96 months.

Investment Activities

The bank's investment securities portfolio consists primarily of securities issued by government-sponsored enterprises (GSEs) (primarily issued by Federal Home Loan Mortgage Corporation, Federal National Mortgage Association, and Federal Home Loan Bank Topeka) and taxable and non-taxable municipal bonds.

Subsidiary and Other Activities

The bank has one subsidiary, Capitol Funds, Inc., which has a wholly owned subsidiary, Capitol Federal Mortgage Reinsurance Company (CFMRC). CFMRC serves as a reinsurance company for the private mortgage insurance companies the bank uses in its normal course of operations. CFMRC provides mortgage reinsurance on certain one-to four-family loans in the bank's portfolio.

History

Capitol Federal Financial was founded in 1893.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
