The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Cardinal Financial Corp. business.

About Cardinal Financial Corp.

Cardinal Financial Corporation operates as the holding company for Cardinal Bank that provides banking products and services to retail and commercial customers in Virginia. It primarily engages in accepting deposits and originating loans.

Cardinal Bank has offices in Alexandria, Annandale, Arlington, Chantilly, Clifton, Fairfax, Fredericksburg, Herndon, Leesburg, Manassas, McLean, Purcellville, Reston, Stafford, Sterling, Sterling Park, Tysons Corner, and Woodbridge, Virginia, Washington, D.C., and Bethesda, Maryland.

Cardinal Bank operates through its subsidiaries George Mason Mortgage, LLC (George Mason), Cardinal Wealth Services, Inc. (CWS), and Wilson/Bennett Capital Management, Inc. (Wilson/Bennett). In January 2009, the company opened Cardinal First Mortgage, LLC (Cardinal First), a wholly owned subsidiary of Cardinal Bank. Cardinal First originates mortgage loans for new homes and refinancing in Virginia, Maryland, and Washington, D.C. principally for existing Cardinal Bank customers.

Cardinal Bank offers a range of traditional bank loan and deposit products and services to both its commercial and retail customers. It primarily serves small and medium sized businesses, as well as government contractors, commercial real estate developers and

builders and professionals, such as physicians, accountants and attorneys.

George Mason engages primarily in the origination and acquisition of residential mortgages for sale into the secondary market on a best efforts basis through five branches located throughout the metropolitan Washington, D.C. region.

CWS provides brokerage and investment services through a contract with Raymond James Financial Services, Inc. Under this contract, financial advisors offer customers a range of financial products and services, including estate planning, qualified retirement plans, mutual funds, annuities, life insurance, fixed income and equity securities, and equity research and recommendations.

Wilson/Bennett provides professional investment management of financial assets with asset preservation as the primary goal. Clients include individuals, pension plans, and medium sized corporations.

Segments

The company operates through three business segments, commercial banking, mortgage banking, and wealth management and trust services.

The commercial banking segment includes both commercial and consumer lending and provides customers such products as commercial loans, real estate loans, and other business financing and consumer loans. In addition, this segment provides customers with various choices of deposit products, including demand deposit accounts, savings accounts and certificates of deposit.

The mortgage banking segment engages primarily in the origination and acquisition of residential mortgages for sale into the secondary market on a best efforts basis.

The wealth management and trust services segment provides investment and financial advisory services to businesses and individuals, including financial planning, retirement/estate planning, trust, estates, custody, investment management, escrows, and retirement plans.

Market Area

The company considers its primary target market to include Virginia counties of Arlington, Fairfax, Loudoun, Prince William, and Stafford and the cities of Alexandria,

Fairfax, Falls Church, Fredericksburg, Manassas, and Manassas Park; Washington, D.C.

Banking Products and Services

The company's principal business is to accept deposits from the public and to make loans and other investments. The principal sources of funds for the bank's loans and investments are demand, time, savings and other deposits, repayments of existing loans, and borrowings.

The principal business of George Mason, the bank's mortgage banking subsidiary, is to originate residential loans for sale into the secondary market. These loans are closed and serviced by George Mason on an interim basis pending their ultimate sale to a permanent investor. The mortgage subsidiary funds these loans through a line of credit from Cardinal Bank and cash available through its own operations. In addition, George Mason provides specific services to other mortga

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Cardinal Financial Corp. Fundamental Company Report Including Financial, SWOT, Competitors and Industry Analys...

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources Financial

Physical

Technological

Organizational

Intangible resources Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
