The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Cardtronics Inc. business.

About Cardtronics Inc.

Cardtronics, Inc. provides automated consumer financial services through its network of automated teller machines (ATMs) and multi-function financial services kiosks.

As of December 31, 2009, the company operated approximately 33,400 ATMs throughout the United States, the United Kingdom, Mexico, and Puerto Rico. Included within this number are approximately 2,200 multi-function financial services kiosks that, in addition to traditional ATM functions, such as cash dispensing and bank account balance inquiries, perform other consumer financial services, including bill payments, check cashing, remote deposit capture, and money transfers.

The company owns and operates an electronic funds transfer (EFT) transaction processing platform that provides transaction processing services to its network of ATMs and financial services kiosks, as well as ATMs owned and operated by third parties. Under Company-owned arrangements, the company provides the device and typically responsible for various operation, including transaction processing, procuring cash, supplies, and telecommunications, as well as routine and technical maintenance.

The company partners with national financial institutions to brand selected ATMs and financial services kiosks within its network, including Citibank, N.A., JPMorgan Chase

Bank, N.A., SunTrust Banks, Inc., Sovereign Bank, and HSBC Bank USA, N.A. It also owns and operates the Allpoint network. The Allpoint network, which has approximately 37,000 participating ATMs, including a majority of its ATMs in the United States and all of its ATMs in the United Kingdom, provides surcharge-free ATM access to customers of participating financial institutions that lack a significant ATM network. Allpoint also works with financial institutions that manage stored-value debit card programs on behalf of corporate entities and governmental agencies, including general purpose, payroll, and electronic benefits transfer (EBT) cards. Under these programs, the issuing financial institutions pay Allpoint a fee per card or per transaction in return for allowing the users of those cards surcharge-free access to Allpoint's participating ATM network.

Products and Services

The company provides its merchant customers with all of the services required to operate an ATM, which include transaction processing, cash management, maintenance, and monitoring. It operates its ATMs under multi-year contracts that provide a recurring and stable source of transaction-based revenue and have an initial term of five to seven years.

The company provides its merchant customers with all of the services required to operate ATMs and financial services kiosks, which include transaction processing, cash management, maintenance, and monitoring. Additionally, it enters into arrangements with financial institutions to brand certain of its Company-owned ATMs with their logos.

As of December 31, 2009, the company had bank branding arrangements in place with 34 domestic financial institutions, involving approximately 11,100 Company-owned ATMs. In addition to its bank branding arrangements, the company offers financial institutions another type of surcharge-free program through its Allpoint nationwide surcharge-free ATM network. Its Company-owned ATMs deployed under its placement agreement with 7-Eleven, Inc. (7-Eleven) participate in CO-OP, a surcharge-free network for credit union, and are included in its arrangement with Financial Services Center Cooperatives, Inc. (FSCC), a cooperative service organization providing shared branching services for credit unions.

In addition to its arrangement with 7-Eleven, the company has entered into multi-year agreements with various other merchants, including Chevron Corporation (Chevron), Costco Wholesale Corporation (Costco), CVS Caremark Corporation (CVS), Exxon Mobil Corporation (ExxonMobil), Hess Corporation (Hess), Rite Aid Corporation (Rite Aid), Safeway, Inc. (Safeway), Target Corporation (Target), Walgreen Co. (Walgreens),

and Winn-Dixie Stores, Inc. (Winn-Dixie) in the United States; ASDA Group Ltd. (a subsidiary of Wal-Mart Stores, Inc.) (Asda), Euro Garages Ltd., Stuart Harvey Insurance Bro

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
