## Abstracts

Carmanah Technologies Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Carmanah Technologies Corp. and its competitors. This provides our Clients with a clear understanding of Carmanah Technologies Corp. position in the [Electrical Equipment](#) Industry.

The report contains detailed information about Carmanah Technologies Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Carmanah Technologies Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Carmanah Technologies Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Carmanah Technologies Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Carmanah Technologies Corp. business.

### **About Carmanah Technologies Corp.**

Carmanah Technologies Corporation engages in the manufacturing and sale of solar-power LED lighting, solar powered systems and equipment, and LED illuminated signage.

#### Segments

The company focuses on two business groups: Strategic and Tactical.

The Strategic Group includes the primary business units of LED lights and beacons and solar power systems for industrial and grid-tie applications.

The Tactical Group includes business units, such as LED edge-lit signage and solar component distribution.

#### Products and Markets

The company's products include solar-powered beacons for marine, aviation, and defense applications; solar-electric power systems for mobile and remote applications;

grid-tie and off-grid photovoltaic systems for commercial, industrial and institutional applications; solar-powered area lighting for parks, campuses and industrial facilities; and signage for retail, casino and architectural applications.

### Solar-Powered LED Lighting

The company offers marine navigation and hazard marking lights with a range of one to six nautical miles; aviation taxiway edge lighting, runway lighting, obstruction lighting, apron lighting, barricade lighting and emergency lighting; roadways pedestrian crosswalk signals, school zone flashers, roadway beacons, area lighting for transit stops and other pedestrian areas, internally illuminated street-name and traffic signs; and industrial warning lights, obstruction lights, equipment-marking lights, railway track warning lights, and bridgemarking lights.

### Solar Power Systems

The company offers off-grid solar power systems and 'balance of system' (BOS) components for telecommunication, oil and gas, security and other industrial applications. It offers mobile solar-power systems for RVs, boats, long-haul trucking and utility fleet trucks. The company's grid-tied solar power systems are designed to help Canadian commercial facilities supplement electricity drawn from the grid.

### LED Signs

The company offers edge-lit LED signs for point of purchase (gaming, lottery), corporate identity (branding), and interior architectural applications.

### Dispositions

In February 2009, the company sold certain assets related to its illuminated road signs business.

### Significant Events

On December 7, 2009, Carmanah Technologies and PTL Solar (Green Energy LLC) announced a manufacturing partnership that would bring leading-edge solar LED lighting technology to the Middle East and selected countries in Africa. PTL Solar and Carmanah have partnered to manufacture solar LED lighting solutions for outdoor lighting applications at a facility under ENPARK in Dubai.

On March 18, 2010, the company and Sabik Oy have formed an alliance to deliver a range of marine lighting solutions under the Carmanah/Sabik brand.

## History

Carmanah Technologies Corporation was founded in 1996.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
