term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Carriage Services Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Carriage Services Inc. business.

### **About Carriage Services Inc.**

Carriage Services, Inc. provides death care services and merchandise in the United States. The company primarily serves suburban and rural markets. It provides funeral and cemetery services and products on both an 'at-need' (time of death) and 'preneed' (planned prior to death) basis.

#### Segments

The company's segments include Funeral Home Operations and Cemetery Operations.

#### Funeral Home Operations

Funeral homes are principally service businesses that provide burial and cremation services and sells related merchandise, such as caskets and urns. As of December 31, 2009, the company operated 138 funeral homes in 25 states.

The company's funeral homes offer a range of services to meet a family's deathcare needs, including consultation, the removal and preparation of remains, the sale of caskets and related funeral merchandise, the use of funeral home facilities for visitation and services, and transportation services. Most of its funeral homes have a non-

denominational chapel on the premises, which permits family visitation and religious services to take place at one location. Funeral homes are principally a service business that provides burial and cremation services and sells related merchandise, such as caskets and urns.

### Cemetery Operations

Cemeteries are primarily a sales business providing interment rights (grave sites and mausoleums) and related merchandise, such as markers and memorials. The company conducts its funeral and cemetery operations in the United States. As of December 31, 2009, the company operated 32 cemeteries in 11 states.

The company's cemetery products and services include interment services, the rights to interment in cemetery sites, including grave sites, mausoleum crypts and niches and related cemetery merchandise, such as memorials and vaults.

### Preneed Programs

Preneed funeral or cemetery contracts enable families to establish, in advance, the type of service to be performed, the products to be used and the cost of such products and services. Preneed contracts permit families to eliminate issues of making death care plans at the time of need and allow input from other family members before the death occurs.

In addition to preneed funeral contracts, the company also offers preplanned funeral arrangements whereby a client determines in advance substantially all of the details of a funeral service without any financial commitment or other obligation on the part of the client until the actual time of need. Preplanned funeral arrangements permit a family to avoid issues of making death care plans at the time of need and enable a funeral home to establish relationships with a client that may eventually lead to an at-need sale.

Preneed sales of cemetery interment rights are usually financed through interest-bearing installment sales contracts, generally with terms of up to five years. The company sold 4,724 preneed funeral contracts during 2009.

### History

Carriage Services, Inc. was founded in 1991.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. ## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
