## Abstracts

Cascade Energy, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Cascade Energy, Inc. and its competitors. This provides our Clients with a clear understanding of Cascade Energy, Inc. position in the Industry.

The report contains detailed information about Cascade Energy, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Cascade Energy, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Cascade Energy, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Cascade Energy, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Cascade Energy, Inc. business.

### **About Cascade Energy, Inc.**

Cascade Energy, Inc., an exploration stage company, engages in the exploration and development of oil and gas properties in Canada and United States of America.

The company holds interests in certain exploration properties in the State of California, State of Kansas and Province of Alberta pursuant to various working interests in farm-in agreements. The company, as of February 28, 2006, had an interest in one production well that has been drilled, cased and completed, and is in the process of producing.

#### Properties

##### Coyote Creek Prospect

The company, as of May 6, 2005, by an assignment agreement, acquired a 33.075% working interest in certain mineral leases (comprising sections 14, 15, 16, 22, 23, 24, 25, 26, 35 and 36 in Township 26 North Range 3 West and sections 1 and 2 in Township 25 North Range 3 West) situated in Tehama County, California, referred to as the Coyote Creek Prospect. Drilling was completed in August 2005. The Coyote Creek natural gas prospect is located at the northern end of Sacramento Valley in Tehama County, California. The Coyote Creek prospect was based on 2D seismic and well

control. The Coyote Creek prospect is a NW – SE trending faulted anticline with three-way dip closure and fault closure to the southwest. The prospect is situated on the eastern, up-thrown block of the Corning reverse fault, which is also a key structural element at the Corning Gas Field.

### Empress Prospect

Empress Prospect: Sections 5, 6, and 7

The company, as of June 1, 2005, executed a farm-in agreement with Blue Scorpion Energy, Inc., a private Alberta company, to acquire a 49% working interest in Sections 5, 6, and 7 of the Empress Project, Alberta Canada. Under the terms of the Agreement, the Company would earn a 49% working interest in each of the three sections by drilling, casing and completing one exploratory gas well in each section.

Empress Prospect: Section 16

The company, as of June 30, 2005, entered into an agreement with Blue Scorpion to acquire a 21% working interest in Section 16 of the Empress Project, including the 11-16-24-2W4M well (the 11-16). Under the terms of the agreement, the company would earn the 21% working interest. The 11-16 was drilled and cased on June 20, 2005 after intersecting three potential hydrocarbon pay zones, and the well was completed in July 2005. The Empress natural gas exploration project is located in eastern Alberta, Canada approximately 160 miles east of the City of Calgary.

### Bolloque Prospect

The Bolloque project is located 60 miles north of Edmonton, Alberta and is approximately 40% of the way to Lesser Slave Lake, Alberta. The company, as of August 26, 2005, entered into a farmout agreement with Salida Capital, Inc. (Salida), a private Nevada Corporation, to acquire the right to earn 49% of the interests that Salida can otherwise earn in six sections of the Bolloque Project located 60 miles due north of Edmonton, Alberta, Canada.

### History

Cascade Energy, Inc. was founded in 2003.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
