The Cavco Industries Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to

profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Cavco Industries Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Cavco Industries Inc. business.

### **About Cavco Industries Inc.**

Cavco Industries, Inc. engages in the design, production, wholesale, and retail marketing of manufactured homes throughout the continental United States. The company's products are sold under various brand names, including Cavco Homes and Fleetwood Homes. It also produces park model homes and vacation cabins in the United States.

#### **Products**

The company produces homes constructed to the building standards promulgated by the U.S. Department of Housing and Urban Development (HUD) and by the International and Universal Building Codes, as well as park model homes and vacation cabins. The company's HUD code homes generally range in size from approximately 500 to 3,300 square feet. Majority of these are multi-section homes. It also produces single-section homes. Included in single-section homes sold are park model homes, which are approximately 400 square feet in size and are purchased primarily for use as second homes, vacation homes or retirement living and are placed in planned communities or recreational home parks.

The company's park model homes are purchased primarily for use as second homes, vacation homes or for retirement living and are placed in planned communities or recreational home parks. It also produces modular homes, vacation cabins and commercial structures for various purposes, including offices and showrooms.

The company's homes contain a living room, dining area, kitchen, one to five bedrooms, and one or more bathrooms, and are equipped with central heating and hot water systems, kitchen appliances, carpeting and window treatments. Feature upgrades include fireplaces, central air conditioning, tile roofs, high ceilings, skylights, hardwood floors and cabinetry, granite countertops, and energy conservation items. The company also offers various structural and decorative customizations to meet the home buyer's specifications.

The company sells manufactured homes through 7 company-owned retail outlets and a network of independent retailers. As of March 31, 2010, its products were offered for sale through approximately 978 independent retail outlets in 35 states, Canada, and Mexico. Majority of these independent retail outlets are located in Arizona, California, and Texas.

### Acquisitions

The company and an investment partner, Third Avenue Value Fund (Third Avenue), acquired certain manufactured housing assets and liabilities of Fleetwood Enterprises, Inc. (FEI) in August 2009 through their jointly owned corporation, FH Holding, Inc. (FH), subsequently re-named Fleetwood Homes, Inc. (Fleetwood Homes). Third Avenue Management is an investment advisor to Third Avenue.

### Competition

The company's competitors include Palm Harbor Homes, Inc.; Clayton Homes, Inc.; Champion Enterprises Holding, LLC; and Skyline Corporation.

### History

Cavco Industries, Inc. was founded in 1965.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
