The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of CB Financial Corporation business.

About CB Financial Corporation

CB Financial Corporation operates as the holding company for Cornerstone Bank. The Bank engages in general commercial and retail banking in eastern North Carolina, primarily in Wilson County, North Carolina. The company's another subsidiary includes CB Financial Capital Statutory Trust I, which is non-banking subsidiary that holds trust preferred securities.

Primary Market Area

The Bank's primary market area consists of Wilson County, North Carolina, and surrounding areas. Two full service offices are located in Wilson, Wilson County, North Carolina, and a loan production office is located in Zebulon, Wake County, North Carolina.

Lending Activities

The Bank offers a range of lending services, including commercial, real estate and consumer loans. It considers individual consumers and small to medium businesses to be its primary market for loans. It also offers both personal and commercial overdraft lines of credit in connection with its checking accounts.

Construction Loans: Real estate construction loans include twelve-month contract housing loans, which are intended to convert to permanent residential mortgage loans upon completion of the construction. These permanent residential mortgage loans are sold in the secondary market. The Bank also originates commercial construction loans. These loans are typically made to businesses or individuals located within Wilson County for the construction of commercial structures in Wilson County, including, industrial facilities, apartments, office buildings, and warehouse facilities.

Commercial and Industrial Loans and Commercial Real Estate: Commercial lending includes commercial, financial, agricultural, industrial, and real estate loans. These loans consist of both secured and unsecured working capital loans and longer-term secured loans. Secured loans are generally secured by commercial property and equipment, as well as other assets such as inventory and accounts receivable.

Consumer Loans and Home Equity Lines of Credit: The Bank offers various consumer loan products. Both secured and unsecured loans are marketed to existing clients and to any other candidates. The Bank offers Home Equity Lines.

Residential Mortgage Loans: The Bank offers varying amortization periods approximately 30 years.

Residential Mortgage Loans Held for Sale: The Bank engages in mortgage loan originations by offering fixed- and adjustable-rate government and conventional loans for the purpose of constructing, purchasing or refinancing owner-occupied properties. The Bank originates single-family residential first mortgage loans.

Other Loans: Various forms of unsecured loans, including revolving credits (DDA overdraft lines of credit and personal lines of credit) are provided and various installment loan products, including vehicle loans, are offered.

Investment Activities

The Bank invests in United States government agency, mortgage-backed securities and municipals.

Deposits

The Bank attracts both short-term and long-term deposits from the general public. The

Bank offers statement savings accounts, negotiable order of withdrawal accounts, money market demand accounts, noninterest-bearing accounts, and fixed interest rate certificates with varying maturities. It offers time deposit accounts, interest-bearing transaction accounts and money market accounts.

History

CB Financial Corporation was founded in 2000.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
