Abstracts

Chemokine Therapeutics Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Chemokine Therapeutics Corp. and its competitors. This provides our Clients with a clear understanding of Chemokine Therapeutics Corp. position in the Industry.

The report contains detailed information about Chemokine Therapeutics Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Chemokine Therapeutics Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Chemokine Therapeutics Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Chemokine Therapeutics Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Chemokine Therapeutics Corp. business.

About Chemokine Therapeutics Corp.

Chemokine Therapeutics Corp., a development stage biotechnology company, engages in the discovery and development of therapeutic products for the treatment of various human diseases.

Pharmaceutical Drug Candidates

CTCE-9908 (Anti-Metastasis and Anti-Angiogenesis)

The company is in developing CTCE-9908 to target specific types of cancer. It intends to initially test CTCE-9908 in cancers with high metastatic potential, such as ovarian cancer, prostate cancer, and breast cancer. The company is in phase II stage of development.

CTCE-0214 (Hematological Support; mobilization of stem cells and neutrophils into the circulation)

The company is targeting CTCE-0214 for development in cancer patients undergoing myelosuppressive chemotherapy, which inhibits the production of blood cells. CTCE-0214 has the potential to restore infection-fighting neutrophils and platelets to

prevent bleeding. The company is in phase I stage of development.

Other Drug Candidates

CTCE-0324

The company is in the research and preclinical testing phase with CTCE-0324 targeting peripheral arterial disease as an indication. It intends to carry out further animal testing of the compound to determine the potential of this agent for peripheral arterial disease.

Other Peptide Based Compounds

The company is working with additional peptides, such as CTCE-0422 evaluating the potential application for wound healing. In addition the company is developing a drug candidate with the potential to prevent stroke.

The company conducted preliminary preclinical research to identify additional chemokines suitable for development, such as CTCE-0501 and CTCE-0422. It intends to continue preclinical efforts to complete lead optimization of CTCE-0422 for wound healing and CTCE-0501 for stroke prevention, as well as investigating the potential use of other chemokines in other unmet medical indications.

Acquisitions

In 2007, the company acquired certain assets of Globe Laboratories, consisting mainly of laboratory equipment and leasehold improvements, through its wholly-owned subsidiary, Chemokine Therapeutics (B.C.) Corp. (CTBCC).

Research Collaborations

The company has a network of research collaborations with the following universities or organizations: Memorial Sloan Kettering Cancer Center, New York, New York; M. D. Anderson Cancer Center, Houston, Texas; Dana-Farber Cancer Institute, Boston, Massachusetts; Chinese University of Hong Kong, Hong Kong; The Lady Davis Institute for Medical Research, Montreal, Quebec; Singapore General Hospital, Singapore; Weill Medical College of Cornell University, The New York Presbyterian Hospital, New York, New York; Wayne State University School of Medicine, Detroit, Michigan; Fred Hutchinson Cancer Research Center, Seattle, Washington; Queen Mary's School of Medicine and Dentistry, London, England; and University of California, Riverside,

California.

Competition

The company's competitors include Genentech/Roche; Imclone/BMS; OSI/Genentech, Eli Lilly; Glaxo Smith Kline; Johnson & Johnson Pharmaceutical Research & Development; Neopharm; Telik; Cell Therapeutics; Abbott Laboratories; MGI Pharma; Marshall Edwards; Pfizer; Amgen, Inc.; Genzyme, Inc.; Wyeth; and Berlex, Inc.

History

The company was founded in 1998. It was formerly known as PTM Molecular Biosystems, Inc. and changed its name to Chemokine Therapeutics Corp in 1999.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
